takes pleasure in dedicating this
the thirty-third volume of the

ADYTUM.

DENISON UNIVERSITY

PROFESSOR WEST

FOREWORD

IN order that the future may be enriched by the choicest memories of the past, we have tried to embody in this volume a graphic representation of the year 1925-26 at Denison University. If we have prepared something, that in the years ahead, will call to your mind pleasant experiences, old scenes and friends, almost forgotten amid the cares of later life, and thus fix a little stronger the tie that binds our hearts to our Alma Mater, we shall be satisfied.

FEATURES

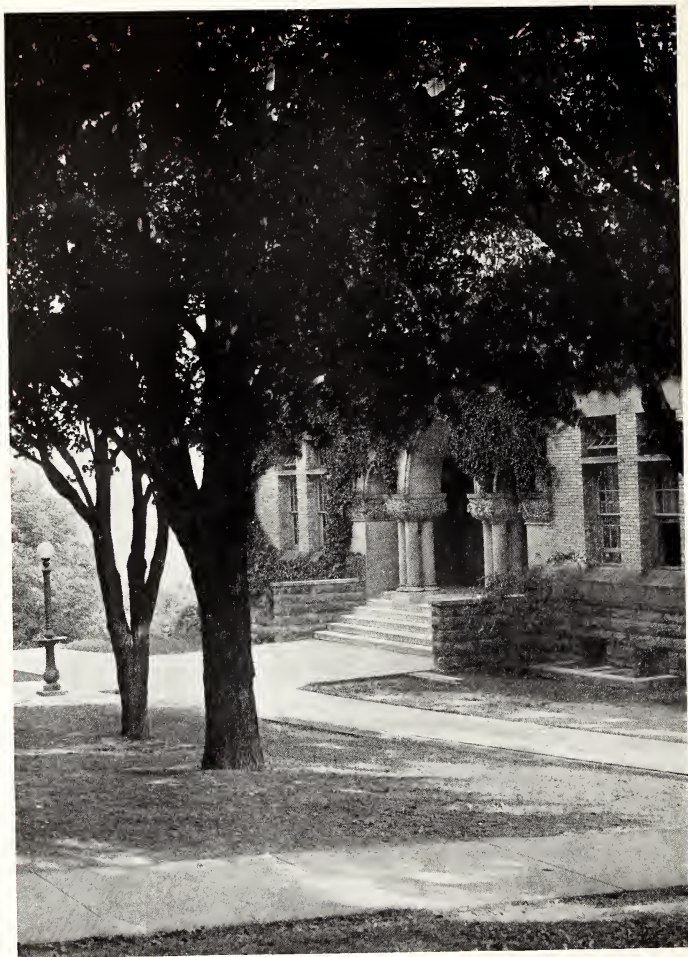

DENISON UNIVERSITY

*Within these fair environs we dreamed of worlds
To conquer, worked, and played, and made proud boast
Of deeds well done; from these fair scenes we pass,
Nor any power on earth can hold for us
Four more such years. In dreams alone we trace
The happy sequence of our college days
While holding as Life's greatest boon the sweet,
Sad solace of our memories.*

 MARK WINCHESTER, '02, Toledo
 KARL ESCHMAN, '11, Granville

The Denison Alumni Society was founded June 28, 1859, William P. Kerr, '45, was the first President. Nearly three thousand members are now enrolled. The council was organized in 1921, and holds quarterly meetings. The Society publishes the Denison Alumni Bulletin.

Graduates of the University are members of the Society of the Alumni. Former students of the Granville institutions who are not graduates, recipients of honorary degrees, members of the Board of Trustees, and members of the Faculty who have been such for at least three years, are received into membership.

A. K. MATHER

Recorder of the University

Mr. Mather is the man who sees to it that you do not try to carry too many, or too few, hours of work. He has the pleasant job of trying to shuffle around a maximum of classes so that they will fit into the minimum of space. Furthermore he knows all your grades, and stands ready at any time to inform you of the fact if you do not pass twelve hours of work.

However, if Mr. Mather were not there to warn us when we do not take all the requirements, many of us would never graduate, while his ability to straighten out knotty schedules is little less than miraculous.

REV. CLARENCE M. EDDY

Secretary of the University

Mr. Eddy is the first man with whom most of us become acquainted at Denison. He mailed us catalogues and application blanks to fill out, asked for our references, and sent us sundry bits of advice as to what equipment we would and would not need in Granville. But his work does not end with the influx of a new lot of verdant would-be-students. All through the year he takes care of the publicity interests of the college, and in June it is he who decides whether we have worked a sufficient number of hours and earned enough credits to warrant our acquiring the precious parchment.

PROF. C. D. COONS

Business Manager of the University

Prof. Coons is the man who has to listen to all the complaints about cold rooms, sagging steps, falling ceilings, and broken windows. It is a task that requires an infinite amount of tact, and it is one that he handles most expertly. The number of new buildings erected in the past year has greatly increased his work and his responsibility.

It is indeed a big man who can efficiently attend to such a multitude of little details.

MR. E. E. HOPKINS
Treasurer of the University

Mr. Hopkins is the man who collects our pennies, counts them carefully, and stretches them to cover the expenses for all year. Besides taking care of the financial problems of the University, he attends to the housing of Academy and University students in Talbot Hall, and manages the Denison Book Exchange.

Mr. Hopkins is a man of many responsibilities, but they have never succeeded in weighing down the corners of his mouth for very long at a time. He is noted for his ready wit, and is very highly esteemed for his ability "to make both ends meet".

DR. H. RHODES HUNDLEY
Dean of Doane Academy

It is through Dr. Hundley's capable hands that many students have passed from elementary school work to the higher education offered in the University. It takes a big man, and a good one, to handle such a task properly. His personal influence has gone far towards the development of the finest type of young manhood that has gone forth from the Academy into college circles and into the life of the world.

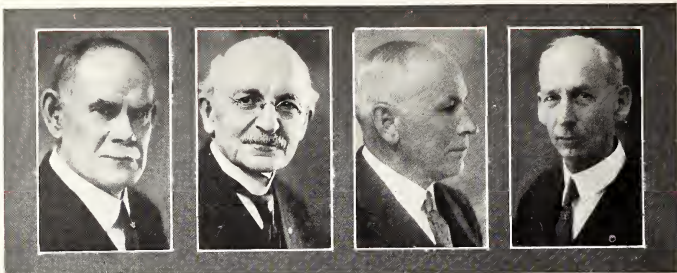

DR. ABBIE L. TULLER
Dean of Shepardson College

Dean Tuller is the person who now has to take the responsibility for the welfare and good behavior of some five hundred lively co-eds. In addition to her duties as Dean she is associated with the Department of Education.

Dr. Tuller came to us from Smith College where she was an assistant professor in the department of education.

Commons Club
Mt. Vernon
Rifle Team (2, 3); Capt. (3).

JUNIOR
CLASS
1927.

DENISON UNIVERSITY

In Memoriam

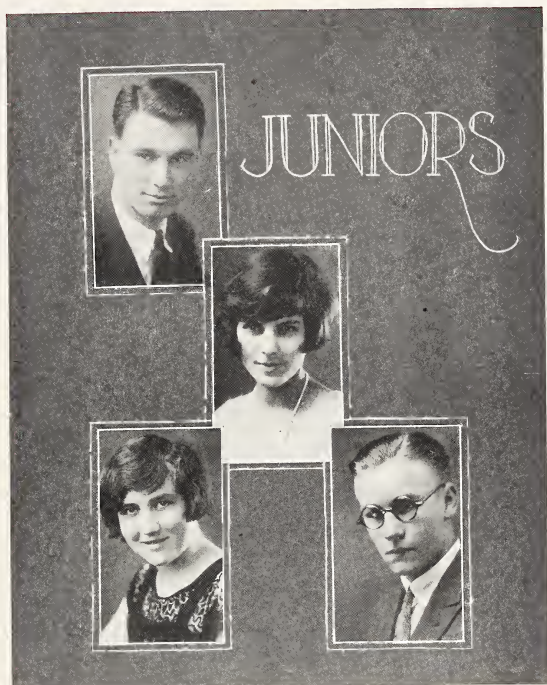

RICHARD WEBSTER

Dayton, Ohio

The sudden death of Richard Webster, a member of the Class of 1927, came as a distinct shock to his friends and was an occasion of deep sadness for the entire University. He was a member of the Phi Gamma Delta Fraternity and one of the outstanding members of his class. While in Denison he had maintained a high scholastic record and took a part in many activities. His classmates held him in high esteem, and the friendships that he established while here have only been enriched by his untimely death.

.

Class of 1927

<i>President</i>	ROSS ASHBROOK
<i>Vice President</i>	DOROTHEA BAWDEN
<i>Secretary</i>	JESSICA PRICE
<i>Treasurer</i>	WILBUR ROGERS

Juniors

ROSS S. ASHBROOK

Granville

Beta Theta Pi

Our class president, and one that we couldn't well do without. Ross has had a varied career within the last three years. As an athlete, he started toward fame as a member of our freshman championship team, and last year Livy found use for him as a regular on the varsity team, of which he is now Captain-Elect. Aside from athletic interests, he has had some connection with a little of everything, one of his interests being the Adytum of last year. Last, but not least, he is steering us through the busiest and most eventful year of our college life.

E. MENDEL SHANLEY

New Philadelphia

Kappa Sigma

"Bill" for all his good looks is very capable and he holds a prominent place on the campus and in campus activities. He plays a fine game of football, is active in the Y.M.C.A. and he was one of those that contributed so successfully to the Junior Revue. For one year he served as class president and during the present term he has successfully taken care of the business end of the 1926 Adytum.

JESSICA PRICE

Morgan Park, Ill.

Chi Psi Delta

In "Jed" we find a certain degree of reserve and dignity, but you only have to know her to realize that there is a great deal beneath it all. Her fingers are alive with the genius of drawing and other artistic accomplishments and she fairly revels in poetry and literature. Much credit belongs to her as costume designer of the "Junior Revue", Art Editor of the "Adytum" and clever contributor of the "Flamingo".

EMILY MAYNER

Ashland

Chi Psi Delta

Very blond, very pretty, very peppy—that's Emily. Small wonder that she ranks among the most popular girls on campus. She's got brains too—lots of them; and she uses them! If you are interested in new books you'll find an equal devotee in Emily. Also she has worked hard in her capacity of Associate editor to make this year's "Adytum" the success that it is. Dance? Did you see her in this year's "Junior Revue"?

DENISON UNIVERSITY

Juniors

WARREN H. BAKER *Washington C. H.*
Beta Theta Pi

Another of our class's worthy athletes. "Bake" has been playing football since he first came to Denison, first as a member of the freshman squad, then, during his sophomore year he made his letter as a member of the Big Red. Naturally, he is a member of the "D" Association. "Bake" is one of the men that has put our class across.

JAMES NICHOLSON *Sandusky*
Sigma Alpha Epsilon

Jimmy bids fair to be the class hero. On the football and basketball floors he usually proves himself one, and when he gets mad—boy! he sure can fight! As football captain for next year, he promises us some interesting games. But besides spending the greater part of the year training for some team or other, Jimmy seems able to find plenty of time to devote to the fairer sex—and judging from appearances he is not exactly unpopular. Added to all that we have a suspicion that by next June he will have a Phi Bete key dangling enticingly from his watch chain. Now I ask you, what more could you ask in a man?

WINIFRED GRAVES *Binghamton, N. Y.*
Chi Psi Delta

We have known Win ever since the days when she was a homesick Freshman down at Milligans—small wonder she was homesick! But we will have to hand it to her that she pulled out of it right nobly, and her excellent work in Masquers as well as in other fields of her endeavor has made her a valuable asset to the class of '27.

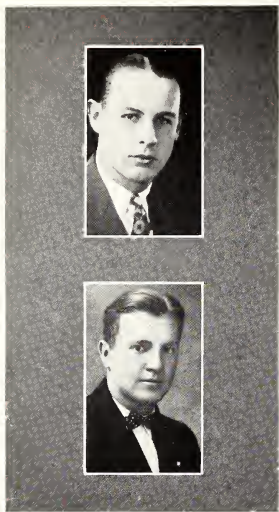

BERNICE RANDEL *Mt. Vernon, N. Y.*
Phi Phi Phi

"Bun" is the proud possessor of that rare and very striking combination of light golden hair and very interesting, flashing brown eyes. To her credit we must place a great deal of the success of the "Adytum". She knows something about any book you mention and her literary interests make her an extremely interesting conversationalist. She is one of those people who have the admirable quality of "the courage of their convictions".

ADYTUM

Juniors

CLIFFORD KADON

Cincinnati

Beta Theta Pi

Cliff is a campus shiek. Or if he isn't he ought to be. He certainly looks the part. But he isn't as slow as he looks. No sir. He is a track man and helps to uphold the high athletic standing of both his class and his fraternity. We were afraid for a while that he was going to desert us, but we are mighty glad that he came back after all. The question now pending is—who will he walk with this spring?

EARL RUSSELL

Wooster

Phi Delta Theta

Did you ever see Russ without that engaging grin of his? That is just a symbol of his good humor which everyone enjoys. Just ask King Hall, for we have noticed a path worn from there to the Phi Delt house. His aim and ambition seem to be in football and we notice that he does play a very nice game. Another important requisite which he possesses is that of being a good dancer. We even hear that he won a prize in Newark once.

CLARICE McDOUGALL *Chicago, Ill.*

Kappa Phi

Clarice is always on the point of leaving for Hawaii or some other outlandish place, but we are glad that she has never carried out her threat. Fluffy hair and a giggle would make a typical flapper out of her, only she isn't quite so flippant. One thing we never could understand is her persistent aversion to dates. Scared of 'em, Clarice?

DOROTHY DARROW

Granville

Kappa Phi

"Dot" has had a reputation to live up to here in Denison, but she hasn't seemed to have had much difficulty in doing it. She is another of our athletic Juniors, and in swimming and basketball as well as hockey, she is an opponent to be feared. We have often wondered where she gets that school girl complexion, and how she keeps it. It seems to be like her smile, the kind that just won't wash off.

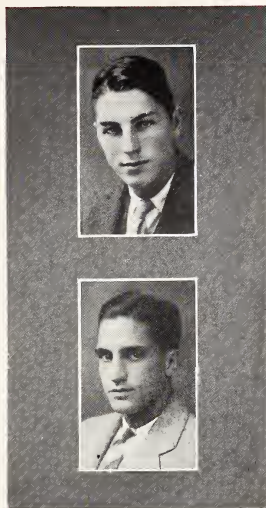

Juniors

LAWRENCE G. HOWE

Birmingham Mich.

Phi Gamma Delta

Larry is another of those nifty Phi Gams who always go about looking as if they had just stepped out of a page of a style book, or like an Arrow collar man on a short vacation. But Larry can snap to when he desires. Did you ever see him play tennis? He sure can! And he is captain of this year's Big Red team at that. But we would like to know what sort of a patent clip he has for his tongue—he is such a quiet little boy.

ANDREW CARY

Plain City

Phi Gamma Delta

Actions speak louder than words, and it is always the versatile ones who get the farthest. We wish we might get better acquainted with Andy, for as much as we know surely puts him on the favorable list. Some men are born handsome, some achieve it, and others have it thrust upon them. Eyes upon your books Semites before you, too, are distracted.

JEAN GORDON

Oak Park, Ill.

Kappa Phi

Jean is our all around athlete. The strange part is that she is also one of "Masquers" star members, being especially adept at taking difficult character parts. We have often wondered when Jean does her studying, for, though she never seems to stay at home long enough to get any work done, yet she pulls the most formidable string of Phi Beta grades from her profs. And, as though the gods had not already given her gifts enough, she has the kind of hair that gets even earlier when it rains. The lucky girl!

DOROTHY CLIFFORD

Ashtabula

Sigma Delta Phi

"Dot" is one of that bunch who spent their Freshman year at Milligan's, and we have more than a suspicion that Dot was one of the big reasons for all the good times they had down there. We are glad that she brought her fun and her good looks with her when she came up to the Sem. It has been rumored that there is a certain person on campus who would rather look at "Dot" than eat—some people sure have good taste!

DENISON UNIVERSITY

Seventy-three

ADYTTUM

Juniors

KENNETH J. MARTIN *Mt. Vernon*
Lambda Chi Alpha

Not much for size, but oh, what ability and ambitions. Ken could argue one into believing the moon was made of green cheese, perhaps that is why he has done so much for us in debate. He has been very active in Y.M.C.A. work and is well on his way to "Phibetdom".

WILLIAM S. GUTHERY *LaRue*
Phi Delta Theta

"There are smiles"—but you must travel the world over and come back to Granville before you can find a great big, contagious smile like Bill's. It's worth a cold million, Bill, and we may easily predict some prominent business man just handing over his business to your care and plenty of girls just waiting for the chance to dance with you—the combination of your athletic figure, smile, and dance is irresistible—if you weren't such a "good egg", Bill, we would almost wish that you were graduating this year.

DOROTHY DETWEILER

Tarrytown-on-Hudson
Sigma Delta Phi

"Dot" is the happy possessor of one of the sunniest smiles on campus, and one of the best shingle bobs as well. She is a very studious young lady, but manages to find time to be secretary of Y.W. "Dot" has managed to escape any campus scandal that we might tack on after her name, yet she is one of the busiest and most useful girls in the class, one that we could not very well do without.

DOROTHY BROWN

Maumee
Kappa Phi

Although Dot is a faithful Sigma Chi relative, we wondered for a while if she was going to change her allegiance to the Kappa Sigs. She is another of our Sheperdson athletic stars, and they say that she can swing a golf club as well as she can wield a hockey stick. Dot is a mermaid, too, and a mighty graceful one. When you consider that she also served on Student Government Council, you realize that she is one of our most versatile girls.

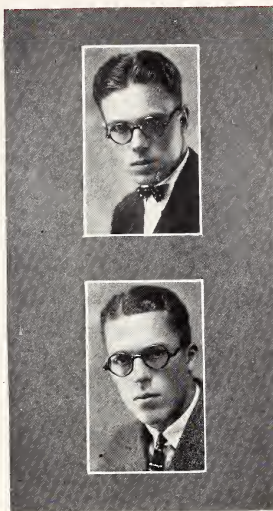

Juniors

BYRON WILLIAMS

Newark

Sigma Chi

"Buck" is one of our Newark lads, with his bonny red cheeks and nice curly hair. Being almost a married man, we have very little chance at him but we do get to see him all of the time at Beaver Hall. For all his social life he attends his classes and pulls the grades. The Glee Club is the proud possessor of his splendid voice, and, Oh! how he sings out on those Sig serg-nades.

RALPH PEARSON

Tippecanoe City

Pi Kappa Epsilon

Ralph is ye honored editor of ye most noted publication—The Adytum. He has high literary ambitions as well. At least they reach as high as the highest stool in most any editorial or newspaper office. Also he has the distinction of being the first president of the newest frat on the campus—and it seems to be flourishing under his administration. Ralph is also associate editor of the Denisonian and Flamingo.

KATHRYN LUCRETIA SILLIMAN

Granville

Sigma Delta Phi

Jack of all trades. Did you ever see her turn her hand to a thing she couldn't do? We hate to start saying what all she has done, for the end seems out of sight. Delta Omicron, debate, Y.W.C.A. Cabinet and innumerable other things. Even though she is always busy, yet she has time for everyone.

ALICE COOK

Granville

Chi Psi Delta

"Cookie" is one of the town girls, but she manages to keep in pretty close touch with the Sem just the same. Most any fair day in the Fall or Spring, Alice can be seen on the tennis courts, hard at work polishing up her game, or the other fellows score. Incidentally, she is the head of tennis as far as Shepherd athletics are concerned this year. She is really a most cherubic looking child, but—well, we wonder!

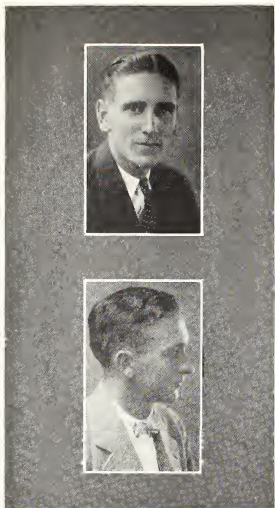

ADYTUM

Juniors

LEE LEVERING

Kappa Sigma

Granville

You have heard the old saying "I'd walk a mile for a Camel—" well, we are not sure just exactly how far it is from the Kappa Sig house to Sawyer Hall, but we know that Lee walks that distance more than once a day—but not for a Camel, dear me, no! One of Lee's pet hobbies seems to be hiking. When he isn't strolling about the country with a certain pretty Senior, he is apt to be seen strolling along with interesting looking surveying instruments (we confess we have no idea what their proper name is.) Anyway we have heard from reliable sources that Lee is on his way towards being a mighty fine engineer. Good luck, Lee, we hope you win out in all your ventures.

C. WALKER AIR

Mt. Healthy
Alpha Theta Sigma

Not very big, but with a big capacity for activities. Walker has concerned himself principally with music, being a member of the Glee Club Quartet, Phi Mu Alpha, and assistant manager of the Glee Club. He has also represented us on the council, is a member of the Chemical Society, Green Friars, and the Adytum staff. Walker has the distinction of being the first manager of a Denison Carnival Night, and also of taking part in two Junior Revues. President-Elect Student Government.

DOROTHEA BAWDEN

Granville

Sigma Delta Phi

Meet a bird who doesn't migrate with the bevy but stops here the year around. Did you ever hear her sing? No? Well there is something in store for you then. You can hear her most any time in the conservatory. "Dot's" mind is not one track and entirely devoted to music, she is quite the sprinter in track, is a good student and interesting to talk with.

MARY SCARRITT

River Forest, Ill.

Kappa Phi

Mary has the happy faculty of making a friend of everyone. Of course her smile helps, but it is Mary herself whom we are all so fond of. She plays a fine game of hockey and holds a prominent place on Student Government. She is always smiling and reminds us of the song "I'm sitting on top of the world". We think she is and the reason for it lives in a certain house on the Alex. pike.

Juniors

THOMAS J. EDWARDS

Birmingham, Mich.

Kappa Sigma

Tommy seems to have been one of the "Big Four" of this year's "Junior Revue". At any rate the success of the production is due in no small measure to Tommy's untiring efforts and his marked ability in that line of work. Furthermore he is another of these English sharks, and is an assistant in that department. We have often wondered what happened to that mustache he started to raise? or was it only a shadow?

WILBUR ROGERS *Fort Collins, Colo.*

Commons Club

Wib has recently been elected to lead the Y.M.C.A. in its work next year, and besides that responsibility he has shouldered quite an active interest in the girls' Student Government. Wib has been active all through his college career in religious matters on campus, and in athletics.

JANE DAIBER

Toledo

Sigma Delta Phi

Jane combines in her personality the beauty and the dignity that many of us will strive for, vainly, all our lives. Furthermore, she is one of the best dressed girls on the campus. Her activities on campus seem limited to walking up and down the hill, and to being herself, but that is art enough for any one mortal to attain, when they are such a mortal as Jane.

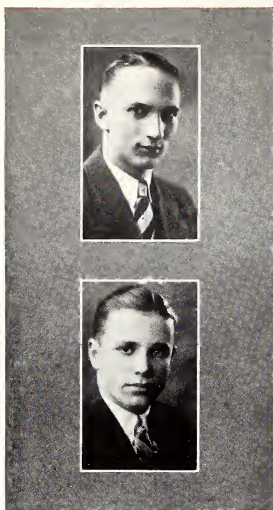

MARGARET FOWLE *Greeley, Colo.*

Shepardson Club

Paging capability? Margaret is the girl then. When every one else is tearing hair and gnashing teeth, Margaret is serenely smiling and getting along beautifully. She takes an active part in debate and also helps to administer justice in Student Government. We are all mighty glad she came here in place of staying way out in Colorado. President-Elect Shepardson Student Government.

AD
DY
TU
M

Juniors

WILLIAM LESLIE

Granville

Kappa Sigma

You have seen this man who goes his way, apparently satisfied with the world. Here he is, wearing that same contented expression. We sure are glad to have "Bill" back this year. He can easily be classified as a friend to all in need. Owing to the fact that "Bill" has already found his "one and only one" we see very little of him except in class.

HERBERT OWEN

Granville

Beta Theta Pi

Mention baseball, one thinks of "Herb's" timely hits; mention the glee club or the Junior Revue and one thinks of his ability to sing; mention campus activity or the Green Friars and you have to take "Herb" into consideration for he is another of the Granville boys who is making an enviable record while obtaining an education.

BEATRICE EWART *Hamilton, N. Y.*

Kappa Phi

"Bea" is very much interested in Y.W. work, and makes a very effective vice-president for that organization. Her clever characterization in one of the plays given by "Masquers" last year, put her in the lime light, while her violin is effective in the college orchestra. Bea traveled quite a bit before she came to Denison which may account for her poise and self possession unusual in so young a girl.

ETHEL GILCHRIST *Wilmette, Ill.*

Kappa Phi

"Patsy" is noted for her giggle and for her winsome winning ways. Add to these characteristics the appeal of a pair of Irish blue eyes, and you will understand why "Pat" is a favorite on campus. Perhaps it was those eyes that helped to win her a position as assistant in English, but we are inclined to believe that the position was well deserved, for Ethel is quite the brilliant scholar.

Juniors

LEONARD HEINRICHS *Chicago, Ill.*

Beta Theta Pi

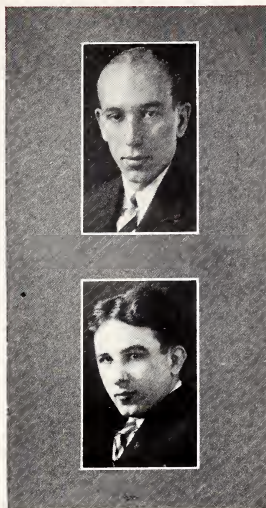

"Henie" is another of a family that has long been represented in Denison. He does many things. The Spring is his busy season. In the Spring he runs the hurdles on the Big Red track team. Besides that he candy-legs. It sure is a pleasure to see him skim over the sticks to a win for Denison. Not only is a star on the track team but he is also a member of Masquers and Green Friars.

CLYDE JENKINS

Cambridge

Sigma Chi

Ability combined with personality in a person of few words and definite actions is the description that might be applied to "Butts" Jenkins, clever leader of the 1926 Denison basketball aggregation. Overcoming a handicap of having been preceded by two brothers of athletic fame, Clyde has made letters in three sports and also found time to take part in campus activities.

CATHERINE HALL *Poolesville, Md.*

Chi Psi Delta

Did you ever see Katy looking really down and out? I never did. She has more fun mixed up with her character and sticking out at the ends of her unruly, unbobbed hair than any other two girls in the class. Katy is one of our shining athletic stars, always there, always full of pep, and invariably most efficient in beating the other team, either by means of her own efficiency or by reducing her opponents to helpless laughter. We understand that Katy is especially interested in basketball this year, in the Big Red team, that is.

MARY ELIZABETH PRICE *Newark*

Chi Psi Delta

"Betty" radiates the spirit of good cheer and friendliness. Try to catch her when she isn't on the go for some good reason or other. She is a whiz at basketball and very good in all athletics, is on Student Government, a member of Literary Club, Athletic Board and is always ready to pop up with answers for her professors.

ADYTUM

DENISON UNIVERSITY

Seventy-nine

Juniors

HARLAN YOAKUM

Utica

Phi Delta Theta

One of the serious minded—well you might think so before making his acquaintance, but still he not only makes grades but also finds time to play baseball and do outside work in the Geology Department. He is a quiet unassuming lad from the vicinity of Utica; eager to learn, fond of most anything and always ready to help—that's Harlan.

CARM YOAKUM

Utica

Phi Delta Theta

Brother to the above named student in more ways than one "Jake" also comes under that categorical index of men who are gentlemen, athletes and scholars. As pitcher on the nine he wins deserved praise for his consistently good work in the box. While much interested in sports and studies he is not one to forget the social side of school life as his many trips to Sawyer Hall would prove.

GRACE CLEVELAND

Granville

Kappa Phi

Grace is one of those nimble little creatures who can trip a graceful light fantastic toe. And she has aided her class wonderfully at various times with her art. But when she puts on those spectacles!—My, she sure looks intellectual! Which merely goes to prove that Grace does more than dance her way through college.

FLORENCE MARTIN

Granville

Sigma Delta Phi

This parcel of curly black hair, rosy cheeks, and glorious brown eyes fairly scintillates pep and vivacity. Florence is capable, energetic, studious, and clever but she has quite a bit of mischief sticking in her. Even though she has had many ancestors in this school, she thrives by her own merit.

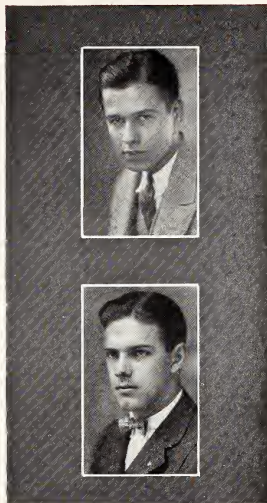

Juniors

WILLIAM BATEMAN

Zanesville

Phi Gamma Delta

Who will deny that Bill isn't Hart, Schaffner & Marx at best, sophistication and all. He may hail from the city of pottery, but that doesn't mean he is fragile. In fact he seems or wants to seem very hard and worldly. Bill is quite the old dancer as you could see from the Junior Revue.

ROBERT LUFF

East Cleveland

Kappa Sigma

It is a wonder how anyone as slow as "Bob" can get there, but he usually does. He knows that Shakespearean line that talks about "sleep knitting the ravelled sleeve of care". We wonder where he finds so many sleeves to knit. He also has a wicked twist to his glance which the girls just hate and to his pun which puts the men in a rage when the Denisonians come out. After all "there's so much good in the worst of us—"the only ones that have a sneaking liking for 'Bob'."

FRANCES ROHRER

Granville

Chi Psi Delta

An overflowing sense of humor and a good hearty laugh help to make Fran such good company. She can be called "Every man's friend" for is there a time that we don't find her gaily chatting with one and then another. She doesn't come and go with the rest of us, but remains the year around. Fran is quite the singer and sits with the best of them in the ranks of the Glee Club.

MARION LOVETT

Detroit, Mich.

Sigma Delta Phi

Marian is a Lambda Chi sister, which makes a very good beginning. Then, too, she is a member of the girls' debate team, which is surprising for such a quiet demure little maid. But it is not so surprising if you knew her at all, for she surely does belong there. It has been rumored, also, that her interest in the Lambda Chi's is not purely fraternal.

Juniors

DWIGHT A. BRAINARD
Commons Club

Dayton

Everyone knows Dwight by that sunny smile of his, and he always has a cheery word for us. They say he is going to be an engineer of some kind. More power to you, my boy! And that isn't all either. When the Big Red band marches down the field Dwight is right with them with his cornet.

LELAND POWELL
Commons Club

Mt. Gilead

Quiet, yet he does not go unnoticed—for his actions speak louder than words. In the Mathematics, Education, or Military Department his worth is recognized by his grades, which are always the kind that we wish that we could get. But studies do not hinder him from taking part in track and other sports or making a place for himself in the social life of the school. We will be sorry to see him graduate next December and leave us without his friendship in person. Success to you.

DOROTHY DEAN SMOCK
Shepardson Club

Erie, Pa.

"Dot" deprived us of her pleasant company and didn't come back last year but we are glad to see that she has joined the ranks again. Although she always hauls in a bevy of A's, she has time for things besides her classes and studying.

ELIZABETH G. WILBUR
Shepardson Club

Graenville

One of our few members remaining with unshorn locks. "Vivacious" describes her, she is always on the go and never passes you without a word or smile which raises your spirits. Biological Club claims her as one of its members and she is very active in Y.W.C.A. work and church work.

Juniors

KENNETH NICOLA

Cleveland

Kappa Sigma

Kenneth is another of those individuals who will try to convince you on the slightest provocation that Cleveland is absolutely the finest city in this little old U.S.A. and when you come right down to it, in the whole wide world. And Ken has convincing ways, for he is training to be a lawyer. He must be good at it too, for he assists in the Political Science department. He worked on both the business staff and the stage committee of this year's Junior Revue.

ROBERT M. WILSON

Dayton

Beta Theta Pi

Bob is blonde and rather quiet—until you know him. We suspect that he is somewhat of a reader too. And we know that he is interested in clothes. What is this about running the new Campus Shop, Bob? Here's where the Betas rival the Phi Gams and Phi Deltas on their Collegiate Kut Klothes.

ESTHER HENEL GIBBS

Canton

Shepardson Club

Esther is the girl who so nobly upheld the honor of '27 by gallantly bestriding a horse and leading her class down to the field day events in the fall. Incidentally, it is reported that Esther is an excellent horsewoman, an accomplishment that we are glad to see coming into its own in this section of the world.

THELMA KATHRYN WEIMER

Lakeville

Shepardson Club

Come one, come all, and see her in King Hall. That is where you will find her when she occasionally decides to spend a few minutes at home. Of course we realize she is hard to find, but that is because she is so good natured and jolly, and every one is demanding her company. Anyone who takes so much math must be an exceptionally good student.

ADYTYUM

DENISON UNIVERSITY

Juniors

JOHN INNES

Chicago, Ill.

Phi Gamma Delta

Those who are busy reviewing the Juniors as they "shake a leg" in preparation for their big debut, declare that "John sure can dance". He's tall and serious but quite forgetful about messages he is asked to deliver. The young girl is known to have remarked concerning him "but he has a sense of humor". Did you tell her a joke, John?

DUDLEY G. LUCE *Bronxville, N. Y.*

Phi Gamma Delta

"Dud" is the busiest fellow, with so many school and fraternity affairs on his mind that we wonder how he can snatch those hours he spends at Sawyer. He comes from New York, which, after all, accounts for anything from getting night and day mixed up to manufacturing new hours and more time—"Dud" surely can do both we've heard tell.

MARJORIE ANNE PENCE

West Jefferson

Sigma Delta Phi

Marjorie is one of those typical little blue and gold girls that you hear sung about so much, light curly hair and blue eyes. Petite and very "chic" describes her. She has a great deal of poise besides being reserved. Are you sure you are telling us everything, Marj? English claims her as one of its pursuers.

RUTH HOBART

Granville

Ruth has made her own place in this school without the aid of her sister who has gone before her. We don't see much of her for she is only around during classes. She is a good student and surely knows her sciences. We have also heard that she is quite interested in the Episcopal Church.

DENISON UNIVERSITY

Juniors

HENRY C. DePUY

Lakewood

Commons Club

Hank is an A no. 1 waiter—just ask Pat Silliman! Also he is a hard working man. That is why they made him business manager of this year's "Junior Revue", and the business end of such a production is no snap job. Yes, you're right, another one from Lakewood. Oak Park, look to your laurels!

LOREN WHITTINGTON

Xenia

Commons Club

Economically speaking he is a shark—socially he is a shiek—athletically speaking—well he was a darn good basketball manager and in spite of it all he has proved more than once that he is a real friend, one worth having. Having helped with the Junior Revue and seen that "Hank" met expenses he is now devoting the major part of his time to studying economics. His membership in Jaw Bones and his interest in all school activities mark him for success in life.

NINE WATKINS

Newark

Dark hair, blue eyes, shoes shined, always looking up to snuff, can't you just see her stepping right out of Vogue. She made quite the charming leading lady in the Junior Revue and it is a wonder that she doesn't take up the profession. However we can say more than that for her, she is also a good student.

MARION EBAUGH

Granville

Chi Psi Delta

Marion certainly showed her common sense when she picked out her home next to the Phi Delt house—at least we wager that Cliff thinks so. Marion makes a first rate cheer leader for the girls of the class, that is she leads cheers when she is not playing on the team herself—but she manages to play on most of the teams to the glory of the class of '27. She is also a member of the girls' Glee Club.

Juniors

RICHARD WEBSTER

Dayton

Phi Gamma Delta

It is hard to realize, except to those of us who have been in close association with Richard Webster, the influence which he had around the campus. Webster's influence upon his close associates, and in particular, upon the younger men of the school, was profound. The service which he rendered to others, at the sacrifice of his own interests, will remain an indelible memory and example to those of us who are left. He was a true friend, a good fellow, and a real Christian gentleman.

WALTER DOUTT

Bowling Green

Sigma Alpha Epsilon

When we think of "Tommy" we think of football, and what's more we think of Geology. For "Tommy" is not only football manager for 1926 but he is also one of the prominent members of the select Geological Society. Although somewhat handicapped because of the double fault of being from Bowling Green and a member of the Sig Alphas he is proving his worth in his selected work and we wish him success.

DOROTHY REED

Homestead, Pa.

Phi Phi Phi

Grace, poise, and dignity make Dorothy one of the most attractive and popular girls on the campus. Poetry, modern fiction and all phases of literature claim her as an ardent devotee. She has a touch of the genius when it comes to the artistic and we have her to thank for a great deal of work on the Junior Revue as well as in it.

LOIS ROEMER

Waukegan, Ill.

Phi Phi Phi

We haven't seen the ring as yet, but Lois's lack of interest in those of the male species in Granville, is all too evident indication of "a man at home". However, Lois does have interests in Granville and makes a very efficient reporter for the "Denisonian". She and her typewriter are very popular when it comes to news items. But we would not have portrayed Lois to you adequately if we left out her giggle. That and her ability to make candy are two things that you won't forget about her. It is such a cute giggle, and the candy—well.

Juniors

HARRY HIPSLEY *Pittsburgh, Pa.*

Lambda Chi Alpha

If Harry was a radio station—they would probably label him—WEAH—namely willing, energetic, athletic. Harry for he is always on hand to help out and he is not only a skillful football player but he also is a strong member of the intramural teams representing the Lambda Boys. He does not confine his efforts to athletics, however, as his work on the 1926 Adytum staff would prove.

RICHARD SINSEL *Grafton, W. Va.*

Sigma Chi

We always knew that "Dick" was sincere, studious, friendly, and a true Sig, (pass the mail pouch) but now we are sure that he will remain with us, for although he has carried the Sig bankbook during the past year he did not leave. All joking aside, "Dick" is one of those fellows who doesn't say much, but can always be depended on to deliver.

HELEN DAVIS

Newark

Shepardson Club

Here she comes, there she goes. That is about all we ever see of Helen for she lives in Newark and she slips quietly back and forth. Did you ever hear her play jazz? Well, it is enough to make anyone's feet tingle and she is no amateur at it. Another nice thing is that she is always willing to play. Not only is she good in music but other subjects on the hill.

CORNELIA MCCOY SMITH *Zanesville*

Kappa Phi

Cornelia came to us her second year and then lived at East Cottage where we could get well acquainted. There must be some attraction in Zanesville for she spends a great many of her week-ends there. She is pretty, witty and wondrous wise, a descriptive phrase which implies a great deal. You have to talk to her only once to want to do it again.

ADYTUM

Juniors

RUSSELL ANDREWS

Hamilton

Beta Theta Pi

"Bud" although he has only been with us two years has earned several titles that speak for themselves of his ability. Undaunted by the fact that he was the smallest varsity basketball player in the circuit this year he not only won his letter as a member of the Denison Big Red quintet but he also became known as the most accurate long shot in Buckeye circles. He is still a persistent rooter for Hamilton, and maybe that is why he hasn't made his social splurge here as yet.

ROBERT LAWS

Bethesda

Sigma Alpha Epsilon

Laws does not necessarily mean anything concerning a court but we imagine that some of the teams meeting Denison in debates during the past year would rather have faced a lawyer's cross-examination than have Robert give vent to one of his effective speeches. We are glad to have you back after a semester's absence, "Bob". Robert does not confine his efforts to debate, however, although he is a member of Tau Kappa Alpha.

ESTHER EWERS

Granville

Shepardson Club

Light hair, blue eyes, and a rosy complexion. Not such a bad combination and if you would only know it not such a bad girl. She, we may brand as local color. Peppy, full of fun, and a real asset. We like her spirit. We can't get much on her for she lives in town, but what we know adds to our liking.

LUCY McNALL

Albion, N. Y.

Phi Phi Phi

Lucy is one of the few Juniors who keeps up on athletics even though it is no longer compulsory. She plays a good smooth game of basketball and has helped make the Junior team what it is. We have her as one of the few semites with courage enough to acquire long hair. She is one of the girls who had such a peppy time when she lived at Baker.

DENISON UNIVERSITY

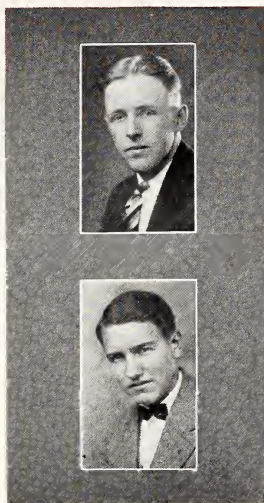

Juniors

ROBERT McCLELLAND

Western Springs, Ill.

Sigma Alpha Epsilon

Here he comes—there he goes, yes just "Bob" circulating the Denisonian. And so it for McClelland usually has a ford with which to make the other boys jealous. Besides serving as Circulation Manager for the Denisonian "Bob" has made a good record in his classes and found some time to devote to the "Sem".

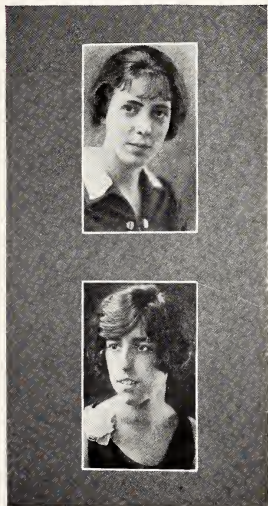

STANLEY H. LEVERING

Granville

Kappa Sigma

A stranger in our midst but we soon became acquainted. We haven't quite figured him out but he has a good start with the "female of the species". Have the dimples anything to do with it? His two hangouts are the Postoffice and the Botany lab., therefore we judge he is rich in correspondents and in knowledge along the science line.

SARA LOU HOWLAND

Granville

Sigma Delta Phi

Sara Lou and her cello are a welcome addition to any crowd, so that we feel especially fortunate in having her in the class of '27. In fact she is one of Mr. Eschman's pet proteges and the pride and joy of the conservatory. Aside from that she is a mighty fine friend to have and we are all glad that she can be back with us again. Here's to you, "Sally", we feel that some day we shall be even prouder to hail you as a classmate!

MARGARET HUSBAND

Cleveland Heights

Sigma Delta Phi

"Marty" is another of our musical people, and a mighty fine songbird she is. She almost decided to desert us, but we are very glad that she changed her mind in this particular. But Marty is a rare good sport as well, and she sure can play hockey, as her W.A.A. friends will testify. We have heard rare tales of her ability to provoke a laugh, especially from her Stone Hall friends of last year.

ADY
TUM

Juniors

ERNEST E. GILLIAM *Harveysburg*
Commons Club

If ever you want to know anything about Political Science ask Ernie and he will tell you because that is his major. But he seems to find time for a lot of other things besides. Have you ever seen the band any time when he wasn't right there? And the boys up at the Club seem to find him a valuable member considering the jobs he holds down.

ESTEL RHODES *St. Mary's*
Commons Club

When we think of "Es" we think of all the glorious parties given by the boys on the campus. Estel, the famous chairman, has put over many a novel idea to the delight of the guests and sadness of the Commoner's pocketbook, but nevertheless he holds a big place in the hearts of his brothers. We hear that he has been thinking some of attending Ohio University but as yet he has not left us.

KATHERINE KIMBALL
Cumberland, Md.
Sigma Delta Phi

"Katy" is a very quiet little girl with a very sweet smile. We are under the impression that she is somewhat inclined to be a student, although the King Hall girls think her something of a mischief maker.

HELEN GRACE LAYCOCK
Chicago, Ill.
Shepardson Club

Helen is one of the sunniest girls on campus. Her hair, her mouth and even the tip of her nose illustrate that fact—they all turn right straight up because they are almost always in that position. Helen is musical, and plays the organ very well. Then too, she is popular with the Beaver Hall girls because she sells candy.

Juniors

LESTER HUNT

Utica

Lambda Chi Alpha

"Les" is one of those people who can fill a variety of positions satisfactorily. Not only can he draw, as his position on the Flamingo, would prove, but he also gets in many "good licks" in class and with his analytical mind he has little trouble, be it in mathematics or English. He takes a prominent part in all the activities at the Lambda Chi ranch and makes not a little trouble for the wash women by stealing the wash board on which to sleep and thus keep his curly locks in shape.

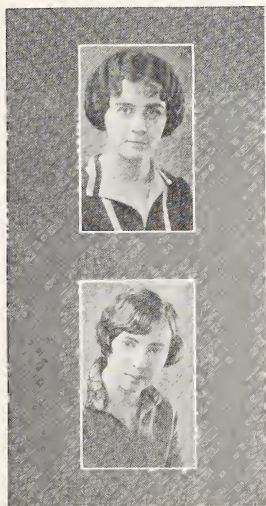

GERALD PENCE

Hillsboro

Kappa Sigma

"Jerry" is "solt" not only on track and studies but also on the "Sem" but he comes through in everything and the Kappa Sigs have honored him with the presidency of their group for the coming year. "Jerry" has been a track star for Denison during the two seasons of his eligibility and in 1924 he was a big factor in the winning of field day by 1927.

MARYBELLE EUBANK

Kansas City, Mo.

Shepardson Club

Whenever there is anything going on in Beaver Hall you may be sure Marybelle is right in it. This is her first year with us but she has made a big place for herself already. She can do most anything in a musical line and has well earned her membership in Delta Omicron.

HELEN SHEETS

Rio Grande

Another newcomer to our class, who substitutes deeds for words and thus keeps us from knowing her likes and dislikes. We always welcome such additions as Helen to our class, however, and we only hope that she may find Denison and 1927 to her liking and decide to return. If Rio Grande has more such attractive girls send them on say we all.

Juniors

KARL W. HUTCHINS
Commons Club

Granville

Karl is one of these quiet boys that we don't know much about, but he is always dependable and we can always count on him being on hand when he is needed. He holds down two jobs at one time, being one of those student-farmers.

HAROLD BROUGHTON
Sigma Alpha Epsilon

Middletown

"Hail the conquering hero comes," say the semites and, "Did you see the pass Peachy made today?" If Middletown produces any more such athletes, just send them around. We wonder where he acquired the "Peachy", but perhaps that would be telling just what we want to know.

MIRIAM ANNA PETERSON
Oak Park, Ill.

Shepardson Club

Another of the forces of Chicago, but if they send no worse they are very welcome to come. Miriam is very active in religious work and the class can claim her as one of her athletes as well as a good student. Find a conversation in session and she will be there and always with something good to add.

FRANCES C. PACKER
Toulon, Ill.

Shepardson Club

Frances hails from one of our neighboring states and we are all very glad that she hailed. She is very quiet and unassuming, on the whole a very composed personage, but she certainly adds to the gaiety of Beaver Hall. We have a very good Latin and Greek student in Frances.

Juniors

ERNEST THOMFORDE *Beacon, N. Y.*

Commons Club

A typical "New Yorker". Oh! how he likes "Noyes". In spite of his constant association with Denisonians, thorough investigation, and a grueling third degree (a la Shepardson) we have failed to get the inside dope on this staunch admirer of New York and its schools. We think, however, that his philosophy must be, "please let me be for I would rather talk than eat".

GILBERT SCHMITZ

Granville

Lambda Chi Alpha

"Gil" is one of those fellows that the outside world does not know. In his inner circle of friends he has shown that to know him is worth any effort required to form his closer acquaintance. This inner circle is not composed exclusively of men either. At present "Gil" is representing us in Florida where he may be preparing for one of his friends of that inner circle. Many a "Lambda Frosh" will long remember him.

DOROTHY B. QUAYLE

Wellsville

Shepardson Club

Dot is one of the best all-round athletes we have in school. It doesn't make any difference what sport it is, she is always one of the stars of the team. But she has the ability to get good grades at the same time and all who know her say she is a mighty fine girl.

KATHRYN MAY WOLF

Dayton

Kappa Phi

Goldy locks, Goldy locks, where have you been? That is what we all asked last year when "Kay" failed to come back to Granville. Wouldn't one think that a Goldy locks should be an actress? Well, so is this one for she is one who can sport a Masquers pin; not only that, but she can boast of tickling the ivories. Yes a musician too. From all we see and hear Kay will spend her honeymoon on one of those Fiji Swings.

ADY TUM

DENISON UNIVERSITY

Juniors

CHARLES WARREN

Commons Club

Medina

"Chuck" is an exponent of the belief that seemingly has but few adherents, namely, that college is primarily a place for study. We hold but one thing against "Chuck", if any, and that is the condemning fact that he has a permanent wave. But even that may be discounted when one considers his quiet manner and willing spirit. He is numbered among the Club's representatives in athletics and spends his afternoons in working out with this Varsity nine.

RAY ROTH

Commons Club

Alexandria

"Shorty" has gone through college much as a student goes through an art gallery, absorbing everything in silence. When at the other end of the hall he finds that he has gained a wonderful knowledge of what was within. Ray studied with a purpose, even though he did pursue his courses after midnight. Studies are not his only activities in college, however, for he is secretary of the Geological Society and also spent many hours helping on the Adytum.

RUTH THURSFIELD JONES

Cincinnati

Sigma Delta Phi

"Johnny" may be quiet but she has proved a lively mischief maker many a night after the ten o'clock bell has tolled. Moreover Johnny is a student, and she sure pulls the grades. Her prowess on the athletic field ought also to be commented upon—it is by her rivals, most certainly. We understand that she can ride a motorcycle pretty well, cross-saddle, which all goes to show that she is a loyal supporter of the Big Red teams when they play out of town.

MARGARET SWEET

Granville

Chi Psi Delta

Peg left us for a few years for Canada and Mt. Holyoke but, like everyone else, she came back to Granville again. We are surely glad to have her with us and she is making herself known right away. She has been chosen for Y.W. Cabinet for next year and is also on Student Government. Her sunny smile and cheery hello have made her many friends.

Juniors

THOMAS BUTCHER

Canton

Commons Club

"Tom" is rather reserved, so some of us do not know him very well, but there is plenty of good fellowship beneath this dignity, and it is well worth your while to make his acquaintance. As a "Sarg" in the Denison Unit, he is one of the best along the line. All these things merely go to prove that hard, steady work will get a man along as far as he wants to go. The world needs more men of the sincere, conscientious "T.A." type.

MILLARD WARREN

Madina

Commons Club

Millard belongs to that class of students who keep themselves well hid during the first two years of their college career, only to show their ability in their junior and senior days. Some folks think that Millard is trying to be dignified; others say he fusses superlatively. How he can manage his accomplishments with his multiplicity of other activities is beyond conjecture. But who can account for his sulphitic quirks?

EDYTHE ECKERT

Detroit, Mich.

Edythe has a way of covering up her work so that to the casual observer her main occupation seems to be the enjoyment of a good time, however, nobody who goes to her for help or sympathy can be disappointed, for she will surely find some way out of the difficulty. Edythe is one of those people having a broad and diverse friendship and a happy faculty for increasing it.

ROBERTA DAVIS

Granville

Shepardson Club

Everyday we come across people who tend to their own business and never make themselves known unless spoken to. However if you are in any of Roberta's classes you will soon know her. Why can't we all have minds like hers? Always ready to answer when we fail. She is always pleasant and has an ever ready smile for all.

Juniors

LOCKHART BOVINGTON

Cleveland Heights

Kappa Sigma

Lockhart is quietly dignified and efficient. Under his retiring exterior he hides an amiable and pleasing personality. We notice that pessimism has no place in his outlook, but rather, he is the constant wearer of the proverbial rose-colored glasses. Not only does he find time, out side of study hours, to take part in all the activities at the Kappa Sig house but he also is known to be a habitual attendant at the "Sem".

WALTER SPRAU

Sandusky

Lambda Chi Alpha

We haven't seen much of "Walt" this year—he's carrying plenty of hours and running a night shift in the library. He seems to have reached the conclusion that all good times must come to an end, so he has really become studious (at times). Think of the walking dates that he has sacrificed for his Alma Mater—what further evidence is necessary? Walter will succeed.

MYRA ELIZABETH WRIGHT *Newark*

Shepardson Club

Myra came to us from our neighboring city and although we sometimes can't say so much for the town we have always liked the people it sends to us. In Myra we have a person who is always ready to help us out and who always has her own convictions and stands by them. She is up on her stuff in classes and has always done her share in gym work.

MARGARET WILEY *Ballston Spa, N. Y.*

Chi Psi Delta

Margaret comes to us from Sargent at Cambridge, Mass., and now she is doing a great deal of work in the gym department here. Always a cheery smile and a nice bit of conversation for you make her congenial and loads of fun to run around with. Because she lives in town and has recently come to us makes it harder to know her but she will always come half way.

Juniors

WILLIAM C. KERNAHAN

Pittsburgh, Pa.

Pi Kappa Epsilon

Now, many and sundry things have been said concerning Pittsburgh by friends and enemies—they have the very worst of journalism there imaginable—but "Bill" speaks for the town unconsciously and eloquently. He is a happy-go-lucky fellow always ready for a party. Seniors!! how's for settling in Pittsburgh next year, if they're all like that!

EDWARD WAGENHALS

Newark

Sometimes Newark is exceedingly convenient and happily situated but at other times when it claims our friends so much of the time—although we know home has its charms—we get almost angry with that little town only six English miles away, for it has meant that we have seen very little of Ed. We know this much though—he is a good student and a good sport—a slick combination!

MARY MARGARET HENDRICKS

Tippecanoe City

Shepardson Club

Mary Margaret is such a nice quiet little lady that you may be surprised to learn that she can play one dandy game of basketball. But you just ought to play against her, and you will find a most worthy opponent. Another thing we admire about Mary Margaret is that she is such a friendly soul, always with a smile for you—and she always remembers you by name!

EDNA FRICK

Cincinnati

Shepardson Club

One of our former students who has come back to join the ranks of '27. If we ever saw a black narcissus that is what she reminds us of. The Muses have been more than kind to her in inspiring her with lovely poetry and making her a valuable asset to Masquers. She has an uncanny talent for palmistry and on the whole is very entertaining. Even the professors solicit her aid for she is a good student.

ADYTYUM

DENISON UNIVERSITY

Juniors

RAYMOND HIATT

Newark

Ray has that rare combination—a sense of humor, and a sense of responsibility—that go to make a big man, but he lives in Newark and thus the Profs are the only ones who really know him. They know him by the quality of his work. Coming and going as he does, to and from Newark, he manages to spend very little of his time in the stately walls of his Alma Mater. He is rather quiet, also, but not for the reason that he does not know but for the very good reason that "Deepest rivers flow most silently".

JACK M. MEEKS

Canton

Sigma Chi

Jack struts along Broadway with a swagger which just seems to tell us that he is an athlete. Tall, broadshouldered and a typical football player one who takes school and fraternity seriously. Light hair, blue eyes, and dimples and he hangs his hat in the Sigma Chi hallway. Jack believes in the old saying, "Variety is the spice of life" for we never see him steadily rushing one girl.

OLITA COWDEN

Cambridge

Beaver Hall boasts one good sport at least. Though she seems to spend all of her week-ends somewhere besides Granville, we do have a good time when we can find her at home. Don't go there to study for "C'est impossible ma chérie". Olita favors us occasionally with a few selections on the piano and she knows how to play.

MARY DUSH

Newark

Shepardson Club

She comes from the city of sin but who would know it. Just ask the Newark girls about her and they will tell you what an asset she is to the old town. Her very face bespeaks amiability and friendliness. Living away from the Sem. doesn't give us much chance to know her but those who are acquainted say it is worth any time or trouble it takes.

Juniors

KARL WEIS

Sandusky

Alpha Theta Sigma

Karl returned to Denison this fall after a year's absence and immediately took his place not only at the Alpha Theta House but also on the campus. During the spring he has been a consistently hard worker as a two miler on the track team. He ranks high as "Sarg" in the Denison army and has climaxed his busy third year with election to the presidency of his group.

ROBERT WHITEMORE

Akron

Sigma Chi

"Bob" spent two years at Brown but corrected himself before it was too late and entered Denison. In spite of the fact that he has a habit of sleeping in class he is a regular fellow and has made many friends since his arrival. "Bob" as far as we can ascertain is very self-contained, and has a violent aversion to puns.

HELEN HENDERSHOT

Sebring

Shepardson Club

There is one thing that we can vouch for about Helen, and that is that she is one mighty fine hiker. Another is that if you stay around Helen for any length of time you are sure to get teased about something. Still a third is that when you are blue, go to Helen and she will send you into such paroxysms of laughter with her ready wit that you just can't be blue any longer.

EVELYN MILDRED STEVENS

Cincinnati

Shepardson Club

Evelyn is a dandy girl—if you didn't know it before we thought it was about time. Find a group of chattering girls and you'll probably find Evelyn right there—we're not rubbing it in—we really mean it, for her smile is genuine, with a studious nature combined and wears well. Come along with that smile and cheery hello, Evelyn, and let them all know you.

Juniors

LESLIE FULLERTON

Huntsville

Commons Club

"Les" has been a follower of the higher arts, ever wooing the Muses with great success during his entire stay in Granville. Silence is one of his chief characteristics, and it only serves to accentuate his artistic tendencies. Although people in general on the campus, have not heard much about "Les" since he entered our class last fall he has made many friends on the hill and is well liked by his brothers at the Club.

CESARE SANTUCCI

East Rochester, N. Y.

Commons Club

"Tucci" stands for sociability, friendliness, and real Denison Spirit. He can say more with a smile than most people can in a complete sentence, and his good cheer has made him a larger number of friends than every one can hope for. He not only stands well in his classes but he finds time to take part in the activities of the Commons Club and also the Cosmopolitan Club.

RUTH BAKER

Passaic, N. J.

Shepardson Club

"Teddy" has faithfully followed in her sister's footsteps in Shepardson athletics, where her prowess in shooting baskets for her class team has won her much applause. Rumor has it that Ted spends more time at her desk this year than she did last, but perhaps this time is not all spent in studying.

VIRGINIA D. GROGAN

Parkersburg, W. Va

You would just know from the way she talks that Virginia comes from the direction of down south. She is full of fun and is out for all the good times that are going. If there is any mischief on foot you may depend upon it that Virginia is in it somewhere.

Juniors

SHELDON SWENSON

Lankershim, Calif.

Sigma Alpha Epsilon

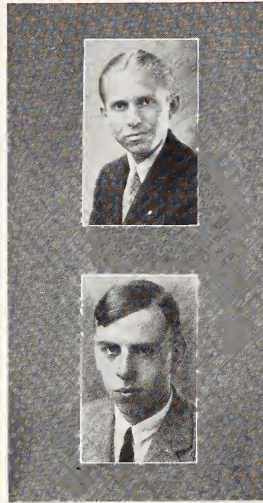

A quiet, unassuming newcomer whom you can't know or appreciate until you really make his acquaintance. The Sig Alphas can boast of at least one good singer for Swenson belongs to that select group on the campus known as the "Men's Glee Club", and recently we have learned that he has music in his feet as well as in his head. He can and does sleep through classes but still manages to influence his professors and get good grades.

LORIN E. ARMSTRONG

Akron

Phi Delta Theta

"Army" is one of the track men that helped us take off our caps when we were freshmen, and continued to run for the Big Red as soon as he was eligible. He was also on the football squad. "Army" has always been very quiet and one wouldn't become acquainted with him because of the noise he makes. In spite of the fact that we have to chase him out from wayside corners, we know that he is a loyal member of our class.

ISABEL FRANCES WEST

Horicon, N. Y.

Shepardson Club

"What nice big eyes you have Isabel!"—"The better to see you with my dears!"—"What an encouraging smile!"—"The better to entice you all". Isn't that the truth? Isn't it criminal for one person to possess all of the assets. Last year she lived at East cottage and you saw her often, but now she lives up-hill and is not around so much.

ROBERTA STERNS WHITE

Liberty Center

Shepardson Club

"Bob White", that is what they call her. Have you ever seen her dash across the campus, a symphony in brown, even to her hair which is a most bewitching mass of gold red and brown. Bobby is very active in Y.W.C.A. work, World Fellowship and many other campus activities. She also mingles a good time with her studies.

ADYTTUM

DENISON UNIVERSITY

One hundred and two

Juniors

WILLIAM ANDREWS *New Lexington*

"Bill" is one of those happy-go-lucky fellows that takes the world as it comes be it good or bad. He divides his time equally in three parts—one part for home, and it is rumored that he has a reason for traveling to New Lexington so often, one part for studies, and one part for his work in Coonie's office where he checks up on the details and types numerous letters.

ALDRED A. HECKMAN

Tippecanoe City

Commons Club

Al is an authority on Sociology and Economics so go to him with your troubles. And he is always so cheery and pleasant. Al has a great many friends on the campus. He is a mighty good waiter, too. Just ask the girls in Sawyer Hall.

RUTH NOFZINGER

Archibald

Shepardson Club

If you are looking for an understanding friend just drop around in Ruth's room and you will find one. Any time you crave company or want to go to the movies just drop into Sawyer and get Ruth. Besides being a good student she always knows the latest dope on the styles.

DOROTHY BLINE

Newark

Not very many of us know Dot because she just came here this year and besides she is so very busy having dates you never can find her at home. "The blue of her eyes and the gold of her hair" make her a true sweetheart of Sigma Chi. Just ask Buck.

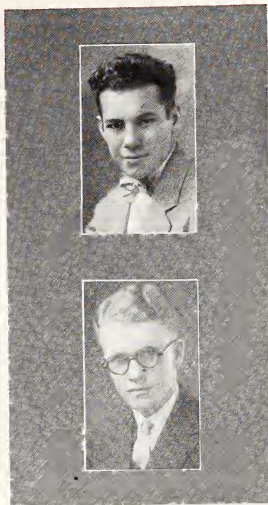

Juniors

SAMUEL TREHARNE *Martin's Ferry*
Commons Club

Dark curly hair, and a cheery smile on such a big strapping fellow of athletic build would capture almost any feminine heart. But "Sam" does not limit his activities to the "Sem" even though he has worn a path there during the past three years. He interests himself in all the campus activities and be it on the football field, in class, or with the army he is equally at home. We wonder, shall he be able to keep his mind on his books next year—or will he leave us too, this June?

JOSEPH MELICK *Johnstown*
Commons Club

Another of those interesting fellows that cheats us out of our due amount of friendship by going home most every week-end. Joe stays in Granville only long enough to do his share in his many classes and then he departs for Johnstown. Although he is very quiet, we have noticed more than an occasional perfect paper returned to him by Profs. We wish that we had a better chance to become acquainted with him.

ILA KURTZ *Akron*
Shepardson Club

We were under the impression that Ila was quiet. She always appears so on campus. But her roommates tell a very different story, so that we have been forced to believe that she is just bashful. It has been rumored, though, that all that racket in the basement of Sawyer, or a large share of it at any rate can be attributed to Ila.

ELIZABETH HUSTED *Wheaton, Ill*
Shepardson Club

"Eekie" is another newcomer into our midst. If Wheaton has any more like her we just wish they would send them on down. We always feel better after we have had a little talk or visit with her. She is never too busy to stop and chat with you a minute. She is on Y.W. Cabinet for next year and we just know she will make good.

Juniors

CARL T. AMRINE

Zanesville

Lambda Chi Alpha

We don't see a great deal of Carl because he spends so much time between here and Zanesville, but he has been here enough that we know he is a regular fellow and a great worker. Carl is quite studious and enjoys the Math. Club and the Chemical Society. He is also a member of Masquers.

WALTER ANDERSON *Stockton, N. Y.*

Commons Club

The world is filled with all kinds of people, and among the many we find those like Walter who are on the job from day to day, inconspicuous, but there just the same. "Walt" is sort of a mystery man to most of us and we don't know his like or haunts. He may say that he is mad but he is not. He insists, however, that should we make any references to his numerous love affairs it will be all the worse for us. As we watch him go quietly about the campus so good humored we feel ashamed to take advantage of him.

ALICE ABERNETHY

Berwyn, Ill.

Kappa Phi

We are very glad that Alice returned to Denison to complete her education, for we missed her a great deal last year. "Al" has stepped right back into her musical activities again, and is now accompanist for the Shepardson Glee Club, as well as chairman of the music committee of the Junior Review.

WADENA F. ADAMSON

Granville

Evidently Wadena is a student, judging from the record for good work that she possesses and also because we don't often see her, except when she sings with the Glee Club. As a Big Sister we imagine she would be hard to beat, since she lives in town. Regardless of the fact that we hardly ever see her, we all know her for a worker in the class.

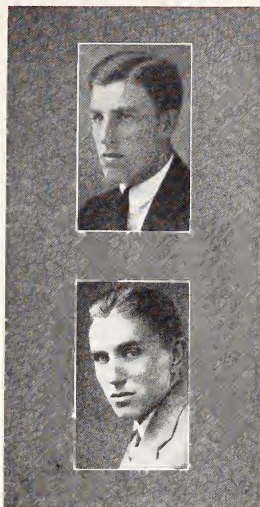

Initiators

CLIFFORD CAREY

Dayton

Phi Delta Theta

Dayton has quite a reputation for furnishing Denison with versatile students and thus gaining for itself the "monicker", as far as Denisonians are concerned, of Capitol of the world. Cliff was no exception as his work on the Denisonian, and Adytum would show. He did not limit himself to the field of publications, however, as his work in the Y.M.C.A. and on the football field and basketball court proves.

THOMAS HENDRICKS

Cleveland

Phi Gamma Delta

We were all sorry to have Tom leave us so soon this year. He was a mighty good treasurer of the class until he left and had to give the job up. We sincerely hope he will come back next year. Good luck to you, Tom!

GERTRUDE BAND

Providence, R. I.

Shepardson Club

Gertrude came to us from Northfield, where she received her preliminary training in the various lines of Christian work that she has carried on here in college. Her stock of humor keeps us all in high spirits, and should stand her in good stead in whatever line of social work she decides to enter. Incidentally, Gertrude is an authority on who dated with who, and when.

KATHRYN E. GEDDES

Newark

Kathryn is one of those exclusive Newark people who are so very hard to get acquainted with. However the profs all know her for she is one of their star pupils. In fact it has been rumored that Professor Hawes said she would make a mighty fine teacher. Go to it, Kathryn, we need a few Phi Betes in our class.

ADYTUM

DENISON UNIVERSITY

Juniors

PAUL CADWELL

Niles

Alpha Theta Sigma

We must say that anything that Paul undertakes to do he does thoroughly—and his chief specialty on campus seems to have been falling in love. For further information see Winnie! Furthermore he seems to be proof of the old adage "All the world—", anyway, everybody on campus that we have asked about Paul has answered, "I like him." So say we all.

ANTHONY BELLISH

Cleveland

"Whitey" returned to us this year after a semester's absence and took up his work again. Busy as he is with his classes and work in the college office he always finds time to go out for cross-country and track and to do his part as trainer for the many teams representing the Big Red. He always wears the latest in styles. But a friend for all of that.

EURIE M. LOUGHRIDGE *Cleveland*
Shepardson Club

We predict that some day she will be a great philosopher. She has the courage of her convictions and will say so to any of her professors. You cannot keep a good man down and Eurie nearly always gains her point. Besides being mentally a leader she makes her place in Shepardson athletics. On the other hand she enters into school functions and is a faithful worker in Y.W.C.A. and the church.

VERA MILLER *Mt. Gilad*
Shepardson Club

Vera is so quiet that you are not always sure when she is around. But she makes a very comfortable person to have around for that very reason. However, when she is interested in a subject she can uphold her policy with great earnestness. In fact "earnest" is about the most fitting adjective with which to describe Vera. But let us not forget her smile. It is always ready to shine out at you, always sweet and friendly.

DENISON UNIVERSITY

Juniors

PAUL REX

Youngstown

We never notice Paul at the "Sem" very often, although we hear that he goes there, but we do see him putting in many a weary hour in the chem. lab. either doing something on his own work or helping some less fortunate student to successfully carry out an experiment. He holds an important place in all the activities of the Department.

JOHN CHURDAR

Roumania

It would seem that the class of 1927 is blessed with quiet, sincere students and John is no exception to that rule. In spite of the fact that he goes his way unnoticed he is more than making go as his many friends will testify. He seems to favor the Greek Department and to have ability in a language that has baffled many a student.

ALTA L. CRAMPTON

Dayton

Shepardson Club

By rights Alta ought to be one of the fast girls in the class, for she successfully made the track team last year. However she has not as yet done anything that we have heard of to hurt the name of a "Shepardson woman", and the fact that she is majoring in Religious Ed. ought to safeguard her against any implications that her track record might produce.

EMILY DORIS KING

Mountain View, Okla.

Shepardson Club

Emily is another example that the class of '27 is scholastically inclined. She is also noted for having a brother that D.U. is proud of, and she herself is no small factor in the realms of Shepardson Club. Those who know her will assure you that Emily is a dandy girl to have for a friend, although she is a bit shy and hard to get acquainted with at first.

Juniors

HENRY CARLOCK

Alexandria

Commons Club

Henry Arthur hails from Alexandria, and he still believes that it is a good town. But gradually he is finding less time to return to his home for well liked week-end visits. As "Sarg" in the army, assistant in the Physics Department, and booster at large for Denison he has a man sized job. In addition he carries a full schedule and holds down a prominent place in the Club.

CHARLES SMITH

Bellevue

Commons Club

"C. R." has that peculiar ability possessed by a few men of looking good in any outfit—and he picks those that are in good taste. He looks like an Athenian of old as he struts along the street attired in becoming blue or gray as it may be. Besides working in the college office and checking up grades he finds time to spend at a certain Broadway residence where he seems to be preferred.

RUTH KATHERINE GROESBECK

Spencerport, N. Y.

Shepardson Club

Not many of us know Katherine because she just joined us this year but it would be a mighty good thing to get acquainted. She can tell perfectly fascinating stories about China and her life there. She is chuck full of fun too, at least the folks at Beaver Hall seem to think so.

HELEN BROWN

Martins Ferry

Shepardson Club

Helen left us last year to teach school but she decided to come back this year and we are mighty glad she did. She always has a bright smile for us when we meet her and she is awfully interesting to talk to. We are so glad to have you with us again, Helen.

Juniors

MAXWELL FISHER *Clearville, Pa.*
Commons Club

"Max" can either have a girl, or impersonate one very well—as those who saw the last "Y Circus" will remember. This "budding" engineer is versatility itself. Who would think that a female impersonator could play football—but you should see him play center. In spite of the fact that he has established himself here on the campus during the past three years we as yet know very little about Clearville, if there be such a town.

ROBERT ELLISON *West Union*
Commons Club

We who have so much to say that the hours of the day fly by much too fast to, cram it all in, might take knowledge of this man who doesn't waste his breath, who never misses a trick, and when he does say something the rest of us are bound to admit that the result was something worth waiting for. After all it was Calvin Coolidge who was elected president for this very trait and not some simple filibustering senator. So here's to you!

EDNA SEABURG *Mars, Pa.*
Shepardson Club

Edna is undoubtedly the most popular and the most besieged girl on upper campus. Twice a day you will find the semites in Sawyer and Beaver anxiously hunting for her, and it is not because she comes from Mars either. Edna is the girl who brings us the longed for check from home, the invitation for a week-end, and, most important, the letter from HIM. Small wonder she is popular. Furthermore she is alternate an girls' debate team.

JENESS CARPENTER *Granville*
Shepardson Club

Jeness doesn't have to pack her trunk every spring and fall and follow the crowd. She is here the year around and we know that Granville isn't sorry. Look for short black hair, snappy black eyes and a most engaging smile, and you'll find Jeness.

Juniors

LESTER H. GALLOGY *Zanesville*
Alpha Theta Sigma

Those who don't know Les say he is very quiet but his friends tell a different story. He has made a name for himself in the journalistic world, being on the staff of the Flamingo this past year. We have noticed him around Stone Hall quite a lot lately. Of course we aren't curious but we would like to know the reason. Perhaps he is waiting for "nickels."

ALBERT THUNN *Middleton*
Commons Club

To say that "Al" is a tenor of unusual distinction is put no more modestly than we really ought to ask some of these girls under whose window he has sung the moonlight hours of the night away—whether he isn't just glorious. One surely ought to make Phi Beta on a voice like that, and then too some little person told me that he had a wicked line but in this year of our Lord, 1926, one hardly knows what a wicked line means. Come around, "Al".

IDA CHRISLER *Milwaukee, Wis.*

We wish that Ida would tell us more about herself now that she has finally selected Denison as her Alma Mater. Those who have made friends with Ida (and they are many) during her brief stay here have found those fundamental qualities that characterize a true woman.

WINIFRED GILL *Ontario, Canada*
Shepardson Club

We are very glad to have had this girl from another country in our class, and we hope that she has enjoyed being here with us. "Winnie" has had quite a reputation to live up to, here at Denison, but we are always glad to have a member of the Gill family with us. Incidentally, we understand that Winnie can quite hold her own in the field of literature, and especially in the realm of poetry. Hockey has seen the vicious swing of her stick, too.

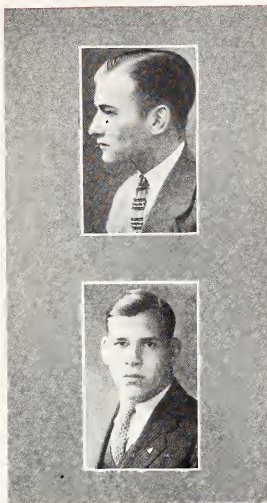

Juniors

LYMAN F. BARBER

Lakewood

Alpha Theta Sigma

Another one of those fellows from that wicked city; When Ford walks past with that military bearing of his it makes some of the rest of us straighten up a bit. We have noticed him around the Minerva a lot lately and we can't make up our mind whether he has a steady job there or not. But just the same, Ford is all right and ready for anything that comes along.

GERALD CROWL

Lorain

Lambda Chi Alpha

Anyone who has seen Gerald jump at that basketball can never forget him. Football found him an apt pupil and he went through three months there for a big "D". He blew in from Lorain just before the big storm up there and we were mighty glad to have him with us—but now that he has left again—we are sorry that he has gone. Not only will the eleven suffer next fall, not only will we, his boy friends, miss him but so also will a certain Miss.

DOLLY STEINBERGER

St. Paris

Our friend, who left Ohio University to finish here, comes under that list of "coeds" who care not for the men of Granville College. According to reliable reports she favors a certain blond "ag" student at Ohio State. Before coming to Granville she spent some time teaching America's young blood, but we don't judge that she will after graduation.

LUCY BELL

Norwalk

Even though Lucy has not given us a chance to get very well acquainted, we are glad that she decided to come back to Denison and join the noble class of '27. Norwalk seems to have quite an affection for Denison, for she has sent us several of her noble sons and daughters. We are glad to see that Lucy is upholding the standard of her home town by taking her major in Religious Ed.

DENISON UNIVERSITY

One hundred eleven

Juniors

WINIFRED DAVIS *Detroit, Mich.*

Alpha Theta Sigma

We must record "Win's" conventional dignity first, his devotion to the "Sem" next, and last but not least his ability to keep things to himself. He not only kept things humming while he was around but he also found time to work on the Denisonian circulation staff and to visit the "Sem". In addition to classroom work he took a prominent part in the Alpha Thets intra mural teams and could always be found either playing on the team or supporting it from the bleachers.

GEORGE N. GARRISON *Walbonding*

George holds an honor that a lot of us wouldn't mind having. He ran off with the Freshman Chemistry Prize a couple of years ago. He is one of these fellows that expresses himself in deeds rather than words. It would be worth while for some of us who don't know him very well to get acquainted.

WILLIAM F. ASHINGER *Columbus*

Phi Delta Theta

"Freddy" is another bashful and unassuming member of the class, although he has done a great deal for us that no one ever hears about. He helps circulate the Flamingo and is a member of the Adytum staff. Between taking care of these positions he spends his time concerning himself with class activities and studies.

PAUL STULL *Granville*

Phi Delta Theta

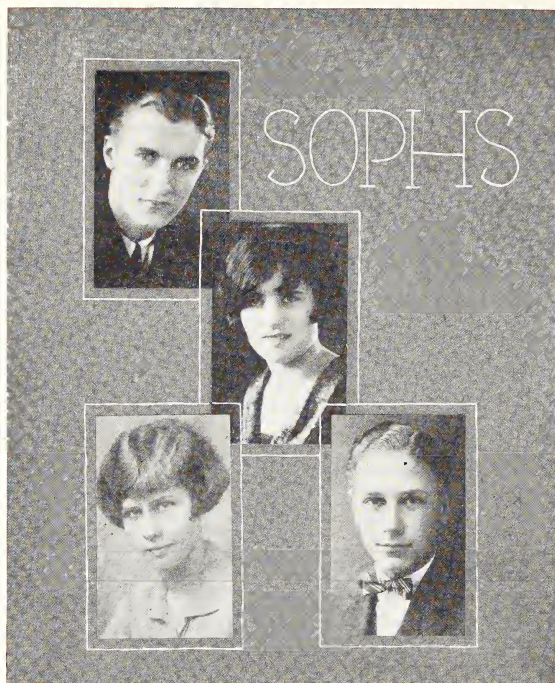

Now if one has ever been at the Phi Delt house when Paul was playing with the keys—the piano keys, lest someone should misunderstand—one is thoroughly convinced that his fortune is made. Why, he can make them get up and dance around in a regular merry-go-round of chords and trills that get you. If you've never climbed the Phi Delt hill to listen you certainly didn't miss his grand band in the Junior Revue. We imagine that you are booked up for months already, Paul. If only they would let us dance here!

DENISON CHAPTER

Founded in 1917

The Denison Chapter of the American Association of Commons Clubs was founded in 1917 and is the mother chapter of the national association organized in 1920. It was the first of a growing number of groups founded upon the ideals of applying democracy to all phases of campus life and of giving every man the opportunity of having a home and social life while in college.

ZETA CHAPTER

Zeta Chapter of Eta Sigma Phi was installed at Denison, December 16, 1925. It is an under-graduate honorary fraternity for classical students founded at the University of Chicago in 1924. Eta Sigma Phi now numbers seven chapters in its organization. It strives to promote interest in the classical studies, and upholds a high standard of scholarship among its members.

COACH WALTER J. LIVINGSTON

DENISON UNIVERSITY

One hundred ninety-three

Department of Physical Education

Possibly the first man that the incoming Freshmen athletes greet is "Sid" Jenkins. For several years he has been at the head of the yearlings and to get evidence that he has developed many a good man one has only to turn to the records of his various squads. He is the chief assistant and right hand man of Coach Livy. One rarely sees him at the Big Red contests as he is usually scouting other teams in the state so as to make the Denison victories possible. "Sid" as a Denison athlete starred in football, basketball, and baseball.

To be able to produce winning teams year in and year out is a job that requires no mean ability. However for the past dozen or so years W. J. Livingston as coach of the university has accomplished that result.

Of the conference games that the Denison teams has played, Coach "Livy" has created a record by winning more than two thirds of the entire number played. In addition to this Denison athletics are known all over the state as clean and hard fought. Fight and aggressiveness have been two outstanding characteristics of the Livingston coached aggregations.

No one denies the fact that Coach Livingston has been successful in the past and as final word the supporters of Denison University wish him every possible opportunity to repeat his performances in the future.

Another man who is an important factor in the athletic department of the university is "Tommy" McMahon. Most of the time he is busy with the gym classes of the Freshmen and Sophomore men. He finds, however, time to help Livy smooth out the fine points in the varsity football machine. He is also a former Denison athlete and well known to the men of the college. Tommy helps take care of the intramural contests and is always on hand to straighten out any difficulties that arise.

“D” Association

Membership in the “D” Association is accorded only to those who have earned the right to wear a varsity letter. The “D” banquet, a formal dinner given after the initiation of the candidates each autumn, has come to be one of the big events of the year.

Among other things the “D” men supply the freshmen with the traditional caps in September. Their interest does not end there, however, as they are insistent on the wearing the caps during the entire year.

Cheer Leaders

CRAIG

PHILLIPS

ELLIS

Cheer leading took an advance step this year with the election of two assistants to help the leader. "Red" Craig assistant pep dispenser last year advanced to the post of leader this year with "Shrimp" Phillips and Ehrle Ellis to cooperate.

"Red" proved a capable leader and a live wire at the job. His undying pep and never tiring smile pulled the Denison supporters through many a critical moment. "Red" and his flips always elicited a hearty yell at the games and as a follower of the team he could always be seen backing the teams on foreign grounds.

"Shrimp" and Ehrle are freshmen and newcomers to Denison. Both of these assistants worked with "Red" throughout the season and much credit is due them for the way in which they helped bring out the most in the good old Denison spirit. More power to them.

Football Review 1925

WITH the passing of the 1925 football season, one realized that in spite of several defeats, the Big Red eleven finished a schedule that was harder than usual and one that was far from disastrous. Four times the Denison eleven marched off the field victorious and on an equal number of times were defeated while one game was finished in a scoreless tie. Never before has the Varsity so lived up to its creed of hard schedules and clean playing. That in itself should be sufficient reward.

Hillsdale's conference champions of Michigan opened the season for Denison with the initial game being played on Deeds field. Throughout the four quarters both elevens battled without avail and the result was a nothing to nothing score. Both teams presented a wealth of material but lacked the punch to score in the crucial moments.

In the second game of the season Denison lost its first conference game when after outplaying their opponents throughout three quarters of the encounter, the Big Red gridders were defeated by Wittenberg 13 to 7 at Springfield. Broughton made the touchdown on a pass from quarter.

A powerful Ohio team, filled with revenge for last year's defeat, met Denison in the third conflict and crushed the Big Red warriors 27 to 0. It was the most disastrous defeat ever sustained on Deeds field. Nothing more need be said.

Smarting under their setback the week before, the Baptists staged a decided comeback in walloping "Bill" Meredith's non-conference team from Ashland 20 to 0 in the fourth contest of the year. Beginning to score in the third period, Sanders went over for the first score early in the period closely followed by Broughton and Russell.

Cincinnati went down to its tenth straight defeat at the hands of Denison in the fifth game on the schedule. The final score of 24-12 was made on a sea of mud in which the Denison men were right at home. Denison was superior in every department of the game although fumbles were numerous throughout the fray. The annual Miami contest in Dayton was next on the list and Denison upset the dope bucket and Miami's hopes for a conference championship when they handed the Oxford aggregation a 6-0 defeat. Moore scored on the most perfect play of the year running 55 yards for a touchdown behind perfect interference. It was the first time Miami had been scored on this season and the first time they had lost to Denison since 1922.

In another downpour of rain accompanied with a sea of mud, Denison continued her march of victory by defeating Muskingum 12 to 0 on the Granville field.

Homecoming day saw a crowd of 10,000 witness Ohio Wesleyan decisively beat a game Denison eleven 26 to 0. Superior weight and experience defeated the Denison team who were finally worn down by a wealth of reserves of the Delaware squad. Time and again the Denison gridders thrilled the expectant throng with a dazzling aerial attack but which fell just short of scoring. The game was the big event of the home program and the crowd of visitors were not disappointed for the Big Red had shown a real battle.

Fumbles lost the game at Wooster, the last of the season, 13 to 7. The game was not won until the last quarter when a fumble and a bad punt lost the game. Rettig scored for Denison on a 80 yard run.

DENISON UNIVERSITY

Varsity Football, 1925

MITCHELL

CAPTAIN MITCHELL, All-Ohio guard—Four years of hard work on the Denison eleven has been the record of "Mitch" and his selection on nearly every All-Ohio comes as a well earned result. As captain this season he has always been on the lookout for the team's best interests—whether it was in regards to rules or wiping off a muddy ball. His graduation will cost the Big Red a valuable and dependable lineman.

NICHOLSON

NICHOLSON, Captain-Elect—The work of "Nick" at center was one of the features of the line play the past season. He possessed uncanny ability in solving the opposition's plays and oftentimes stopped the opposing backs in their tracks. With Nicholson leading the Big Red next year, we predict a very successful season.

BEHAN

BEHAN—Playing his first season with the Big Red, proved a valuable asset to Livy's back field. The passing attack of the team was built around Fred, who was quite adept at hurling the oval. An injury to his knee proved troublesome at times, but his playing was hardly indicative of it. Behan is a senior, and will be among the missing when next year's football roll is called.

BECKER

BECKER, All-Ohio tackle—John was rewarded this year for three seasons as a consistent player on the Denison gridiron by being chosen as a member of at least two All-Ohio's. As a heavy lineman, he smashed through to make many a hole for the ball toters and it was his work that cleared the way for Moore in the Miami conflict. This is another senior who will be lost this year.

Varsity Football, 1925

RUSSELL

RUSSELL—This big fullback from Wooster has made a place on the Denison team for keeps. His influence was felt as a line plunger but he showed up best as a player on the defense. Although never a flashy player he was consistent throughout the season and more than made good in his first year of competition on the Denison eleven.

BAKER

BAKER—Playing regular on the Big Red this season, again proved his worth at tackle. This heavy linesman could always be counted on to be on the spot when a fumble occurred and many times the opposition found that there was no hole in the line at his position. His weight proved to be a great advantage to the comparatively light line. He has another year with the Livingston football machine.

MOORE

MOORE—In his first year on the varsity gained a wide reputation by his fifty-five yard run at Dayton, which brought a long hoped for victory over the Miami eleven. He was an excellent ground gainer and a triple threat man, excelling in open field running. He will be with us two more years belonging to the sophomore ranks this season.

CROWL

CROWL—Started the season at tackle but was shifted to guard where he made his letter. He was a hard fighter and showed up well in his second year of varsity play. With the experience gained the past two seasons, Crowl should go still better in the next campaign.

Varsity Football, 1925

BROUGHTON

BROUGHTON—Was on the receiving end of the forward passing attack and gained many yards for the team through his efforts. Peachy was especially adept at getting down under punts. Although a very light man, he successfully kept the opposition from making long gains around his end.

PROSSER

PROSSER—Played a steady, consistent game on the right end of the line. Prosser's punting ability was above the average and gave the Denison team a big advantage over most of its opponents in this angle of the game.

JENKINS

JENKINS—Played quarter and showed excellent judgment in selecting plays. "Butts" was a good ball carrier, a good passer, and the most accurate drop kicker on the team. He will play one more season for the Denison team.

SANDERS

SANDERS—This diminutive quarter was one of the best open field runners on the Livingston coached machine. Sandy was mentioned by Earl Prugh, The Walter Camp of Ohio football, as one of the four men on the Denison team deserving of All-Ohio honors. He has two more years on the Denison team.

Varsity Football, 1925

RUTHERFORD

RUTHERFORD—After losing his opportunity to win a letter for the past two seasons because of injuries, Barney shook off his old jinx long enough to earn the coveted "D". His showing at guard was excelled only by his fighting spirit, with which no opposing guard could compete. Barney is another of the men Coach Livingston will miss next year.

RETTIG

RETTIG—Another retiring senior who has left a splendid athletic record behind him. Rettig was a back field man who was best in the open field running department. "Rastus" brought his football career to a close by a brilliant eighty yard run against Wooster in the last game of the season.

KUNDERT

KUNDERT—As manager of the team, "Ed" attended to every detail which would add to their comfort. The expenses of the team were kept at a minimum under his guidance and everything was attended to in a business like manner. He was always on the outlook for the team's welfare and was very popular with the men.

DECKER

DECKER—A guard, played a steady game throughout the season and was a tower of strength to the right side of the line. Decker also kicked-off in a good fashion. He is a sophomore and has two more seasons left to play on the Big Red.

1926 Basketball Season

Denison's Big Red basketball team came through one of its most successful seasons in years. Out of a heavy schedule of sixteen games, nine victories were carried off, while third place was won in the newly formed Buckeye Athletic Association with a final average of 500.

In the first game of the season Ashland's quintet was decisively beaten by a score of 39 to 8.

Denison won its first Buckeye Athletic Association victory, 28 to 24, over Cincinnati, B.A.A. Champions.

A 41 to 25 defeat was handed to Miami when the Big Red, outclassing their opponents in all departments of play, won their third successive victory.

In their first out of town game, with Wooster, Denison's team received its initial defeat, 27 to 21.

The Athenians of Ohio U. handed Denison its first B.A.A. defeat, 21 to 33.

Wooster was then defeated by the close margin of 36 to 34.

A lack of aggressiveness on the part of the Big Red lost the next game to Cincinnati, 31 to 27.

Miami revenged her first defeat by Denison, winning the next fray by a score of 32 to 29.

Letting loose with a sweeping offensive Denison won its first victory of the season with Wesleyan. The score was 44 to 30.

Mt. Union gave Denison a narrow defeat of 28 to 26, when a regrettable instance, caused by an error on the part of the timekeeper, probably lost this game for the Big Red.

When Western Reserve met the Big Red in Cleveland it was a Denison game, the home boys winning 43 to 30.

In a disappointing contest all the way through Ohio won from Denison, 24 to 17.

"A tooth for a tooth" was the motto of the "Bishops" from Wesleyan when they encountered the Big Red a second time and won, 25 to 23.

In a game in which neither team displayed any great brilliance Wittenberg went down before the Big Red, 38 to 30.

In a flashy and speedy fray Denison won its final home game against Oberlin, 51 to 30.

The last game of the year, played at Wittenberg, resulted in an easy win of 50 to 22 for the Big Red team.

Varsity Basketball, 1926

CAPTAIN-ELECT ASHBROOK—At forward exhibited brilliant work all during the season and won his second letter with the Big Red varsity. Ross played every minute of every game with the varsity during the year, his strong guarding work and dependable passing making him an indispensable player. He was also a consistent shot, taking the scoring honors for Denison in the game with Ohio at Athens and snatching high point honors for both teams against Cincinnati with three field baskets and four free shots. Ross takes up the captaincy next year, well equipped to lead the Big Red through a victorious season.

CAPTAIN JENKINS—Was a player who was all over the court, playing both defense and offense with equal facility. He could always be counted upon to land the ball in the right place, and his flashes of speedy dribbling through the entire opposing team was a continued feature of the season's games. He was an able leader of the Big Red and several times saved the day for Denison with his sure fire baskets. "Butz" played only fifteen minutes in Denison's first meeting with Wittenberg and in that period of time made five field baskets and provided the only bit of brilliant playing of the game.

CURRY—Is another valuable man who leaves us this year, having played both his first and last season with Denison's basketball team. "Wockle" showed up to good advantage all during the year, playing an excellent floor game and proving accurate on field goals. He started his first regular work with the varsity in the tilt with Miami and proved the star of Denison's second meeting with the same quintet when he overcame the handicap of an injured ankle and scored six points for the Big Red in the last period of play. His best efforts were expended in the game against Oberlin, in which his accurate shooting netted twelve points.

BEHAN—Played his last for the Big Red this year and leaves an enviable record behind him. He piled up a total of 114 points for the varsity during the season, winning second place in the list of high scorers in the B.A.A., only seven points behind the leader, Armstrong, of Wittenberg. Fred led both teams in individual scoring in four games of the year, those with Cincinnati, Miami, Oberlin and Wittenberg. He will be missed when the Big Red quintet lines up for action next year.

Varsity Basketball, 1926

PROSSER—Was the only sophomore to receive a letter in basketball this year. He was always Livy's first choice for substitute at forward and proved a consistent player in the several games in which he took part. Cy's height and lengthy reach gave him the advantage in getting passes, and he was a valuable scorer for the Big Red. Big things are prophesied for Cy in his remaining two years.

NICHOLSON—Played his second year for the Big Red basketball team and made an enviable record. Always there on the bat-off, he was most at home in the back guard position and took many dangerous shots off the opponents' backboard. Although not a spectacular player, "Nick" was a consistent wall of strength in both offense and defense and broke up many plays of the opposing teams. In the Oberlin game "Nick" piled up twenty-two points for the Big Red.

ANDREWS—Proved many times, to the amazement of his opponents, that "good things come in small packages." He was another of Livy's first hand reserves, playing his first year for the Big Red in his Junior year. "Bud" is one of the most accurate long-basket shooters in the Conference, and he used his unusual speed and diminutive size to good advantage in eluding the guarding of his opponents. "Bud" has another year with the Big Red, in which he is expected to be an invaluable player.

MANAGER WHITTINGTON—Won the respect and esteem of both the varsity and the student body by his able handling of the business end of the basketball season. Loren always looked after the welfare of the team and took care of the many business deals in an efficient manner, being an amiable traveller on the road as well. A hard worker and a capable manager, "Whit" was well deserving of his "D".

DENISON UNIVERSITY

Track Review, 1925

ONE of the most successful seasons that has ever been recorded by a Livingston coached aggregation was completed last Spring after the track team of Denison University had won all five of her dual meets, had placed third in the Big Six and had made a good showing at the Second Annual Ohio Relays.

Amassing a large number of points in each meet, the Denison tracksters outscored their opponents in the five dual meets 417 and 2-3 points to 208 and 2-3 or twice the number gleaned by the Big Red's opponents. Four college records were broken during the season, some of them being advanced twice.

Kenyon opened the track season for Denison and was easily defeated 90 and 2-3 to 25 and 2-3 points. The well-balanced Livingston team took twelve firsts and seven seconds besides handily winning the mile relay. Heinrichs broke the low hurdle record in this meet, clearing the obstacles in 25 and 8-10 seconds.

Denison had little difficulty in overcoming the Ohio University men 103 to 28 in the second meet held on Deeds field. The Big Red squad showed superiority both on the track and in the field winning all but two first places. The most interesting feature of this meet was the mile run in which Bash came from behind on the last turn to win from Captain Graft of Ohio.

The only out-of-town dual meet on the Denison card resulted in another victory for the Big Red when they defeated Cincinnati by a 78 to 52 count. Nicholson broke the Denison record in the half-mile beating his team mate Kenney by a slight margin. The Cincinnati squad made their best showing in the dashes.

Oberlin contributed the fourth victory to the Big Red cinder performers the following week. Denison easily copped from the upstate squad by a 78 to 53 final score. Kadon bettered the discus mark by a throw of 120 feet 2 inches, a mark set the year before. At the same time the Licking County High School meet was held with Granville High taking all the contests by a good margin.

The Livingston coached men took nine firsts and tied for a tenth in finishing undefeated their list of dual meets when they handed a 67-50 defeat to Wooster. The contest was one of the closest meets of the year and the work of Mayes in the two mile cinched the contest. Heinrichs, leading Denison point getter, again smashed the low hurdles record while Bash turned in his best performance of the year in the mile.

In the Ohio Relays Heinrichs won the 120 yard high hurdles and placed in the 100 yard dash. Three Denison relay teams also placed while Gibson showed up in the triathlon, which consisted of the shot-put, javelin, and the discus.

Varsity Track 1925

BASH—Possessed remarkable ability in the mile and two mile events. In the last few laps of the long drag Freddy would easily pull away from his opponents with a terrific sprint. At the first of the season his performances were particularly outstanding and on one occasion he completely lapped his opponent in the two mile event.

ABERNETHY, Captain—Started his track career at Denison as a trainer and ended up as captain with a brilliant show of work on the hurdles. With his running partner it was not uncommon to see the first and second place in both hurdle events credited to the Big Red.

GABELE—Was Denison's leading representative in the broad jump. In very few meets during the year was Ralph out jumped by opposing tracksters. His early season performances were hampered somewhat by a sore tendon in his right leg but this difficulty was soon overcome and he began gathering firsts with a mechanical regularity. Gable finished his track career with the Big Red by taking a second in the broad jump at the Big Six meet held at Delaware.

GIBSON—For two years has been the Big Red's mainstay in the shot put and discus. "Hoot" held the Denison record in the discus until this year when it was broken by Kadon, a teammate. He also gathered points for the team in the javelin throw.

DENISON UNIVERSITY

Varsity Track 1925

STOCKDALE—Mike was the man who upheld the high jumping honors of the university. In his last season on the track team, this lanky senior limbered his legs and captured many a point for the Denison score. He led the jumpers and easily won his second track letter during the season.

KENNEY—was the most outstanding man on the team in the half mile and the relay. His ability was shown in the fact that he was chosen captain for 1926 and in the Big Six although he did not win first place or get credit for it he ran the half in one-fifty-nine flat. His speed quickened up the relay team to a great extent and made it one of the best in several years.

HEINRICHS—This sophomore proved to be one of the most valuable men on the team due to his ability to perform equally well in several events. As a hurdler he set a new record for the school and copped several firsts in the 100, 220, broad and high jump. He will have two more years to uphold the Big Red on the cinder track.

NICHOLSON—was another sophomore who helped bring Denison's track team through the season without a single defeat. "Nick" was entered in the 880 and the mile. At the Cincinnati meet he beat his running mate and established a new record in the half.

DENISON UNIVERSITY

Varsity Track, 1925

BROUGHTON—"Peachy" as a ten second man was hard to beat on the track last year and his first places in the shorter running events made him a valuable man on the well balanced squad. As was the larger part of the squad, Peachy was a sophomore which gives him bright prospects in his next two years with the Big Red cinder performers.

PENCE—was entered in the university meets as a 440 and relay man. In competition during the year he was usually the first man to break the tape in his favorite event, the 440. He was one of the most consistent winners on the team, and was successful in winning his letter in the first few meets. He also ran the 220.

KADON—This sophomore was one of the best point getters to rise from the ranks of the previous year's freshman squad. In the meet with Cincinnati Kadon led his teammates by gathering in three first places. His best achievement of the season was in the Oberlin meet when he broke the college discus record with a heave of 120 feet 2 inches.

GLASGO—Was another typical manager of Denison athletics. He was always on the lookout for the best interests of his team and school. Whenever he was needed he was always on hand and the team itself claimed that the management was efficient and energetic. This senior had a capable bunch of assistants and the track was always in shape for a meet.

Baseball Review

AFTER winning ten games and dropping two for third place in the Ohio Conference, Denison baseball fans realized that Coach Jenkins had produced one of the best nines that had ever represented Denison in many years. The play of the team was of the highest calibre and is evidenced by the fact that from the cellar position in 1924, the Denison team was at the top in '25; a team that proved a strong contender on every diamond.

The season started with a practically new team reporting for berths. When the opening game was played, Denison lost to Ohio University 4 to 3. The game went 10 innings and was hard fought all the way. Otterbein handed Jenkin's men their second setback with a 5-2 lacing that was a genuine defeat.

Then Denison started a comeback. Still feeling the 4-3 defeat at the hands of Ohio in the first game of the season, the Big Red nine walloped the Athens men 7 to 1. Next Otterbein came back and the former victors were defeated 3 to 2 by a strong Denison nine. Denison lost to the champions at Wooster when the Bolesmen won by a 5 to 4 score.

Muskingum was the first to fall before a terrific onslaught launched by the Denison diamond players which culminated in a victory of eight straight games. The New-Concord men were turned back 8 to 2. Oberlin, with one of the best conference teams, was the next to fall by a score of 1-0 in a spectacular game. The Muskingum men were again taken into Jenkin's camp, this time by a 7-6 score in an overtime game.

Wooster, the Ohio Conference champs and victors over Ohio State, leaders in the Big Ten, was the next on the Big Red schedule. The game marked the height of the baseball season and went 11 innings before Denison emerged victorious 4-3.

Kenyon was laid in the dust 10 to 3 in the first game after the Wooster victory, and on the first of June Ohio Wesleyan's nine went down in defeat, 5 to 4. Denison's second game with Kenyon proved another easy 9-4 victory. With the last game of the season still to be played, Coach Jenkin's men journeyed to Delaware where in a 11 inning fracas, Denison tucked away her tenth straight victory to the tune of 5 to 4.

Wooster stood at the top of the Conference list having claim to her title in as much as she had won all her games but one. The nine from Cincinnati was accredited with second place having lost but two tilts. Denison in third place lost to Ohio once 4 to 3, to Otterbein once 5 to 2, and to the champions once 5 to 4. On other occasions when Ohio, Otterbein, and Wooster met Denison they were defeated in turn. Cincinnati was not on the Denison schedule last year.

Varsity Baseball, 1925

CAPTAIN FRANCE—Played a remarkable field game at short stop and was the home run champ of the Big Red team. He led his team in admirable fashion.

MANAGER KLINCK—Always on the job, always smiling, that was Red and he was well liked by all the boys. Equally good at business or entertaining.

CAPTAIN-ELECT CURRY—Was the main strength of the Big Red outfield, playing spectacular ball in the left field position.

Varsity Baseball, 1925

E. B. SMITH—Was on the receiving end of his brother's pitching, and the two together formed a very effective battery.

E. D. SMITH—Was Denison's best bet in the pitcher's box. To his brilliant handling of the ball is due many of the Big Red's victories during the season.

SHELLY—Held down the middle sack in good style and hit well all year.

RICHARDSON—Used his height to advantage in snatching balls at first base, proving a consistent batter as well.

Varsity Baseball 1925

OWENS—Starred at the batting end of the game and added effectively to the strength of the outfield.

JENKINS—Led the Denison nine in batting average and proved a dependable player in center field.

YOAKUM—Hurled some fine games for Denison last season and is in line for dependable work in the pitcher's box this year.

SOLIDA—Played excellent ball at third base and, with Richardson and Shelly, completed the famous Denison double-play trio.

Tennis Review 1925

CAPTAIN STOCKUM—Leading the team for the second time, played an excellent game. Stockum's game was a steady one, at times merged into a brilliant display of strokes, which swept his opposition aside. In playing the first singles for the team, he met and made a creditable showing against the best court performers in the state.

HOWE—Made his bow among the clay court artists and played a creditable style of tennis. Larry excels in a hard overhead service and has some reliable ground strokes. He has been selected to lead the racquet wielders in their 1926 campaign.

JONES—Turned in more victories than any member of the team and played an excellent game of doubles with Stockum as a partner. Jones played a driving game with which he occasionally mixed some clever placements. He is eligible for one more year of varsity tennis and should rate well in the next conference campaign.

MOORE, a senior, and **WELLMAN**, a junior, were the other members of the team. Both men lacked a victory in one match to win a letter.

In some fast exhibitions of tennis, both at home and abroad, the local court artists held their own with the major net teams of the Ohio Conference. The squad was well balanced and presented a varied attack in both singles and doubles. Two teams, Wooster and Ohio Wesleyan, were the only ones to emerge from the contests with a majority of the matches. Lack of suitable training facilities hampered the team somewhat in early season matches.

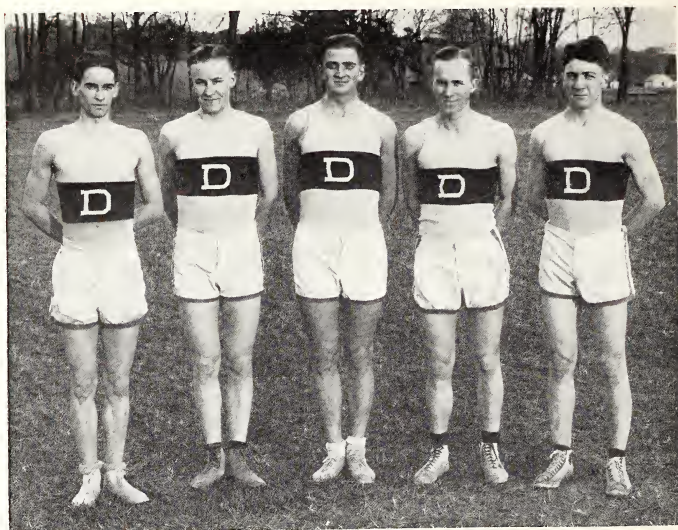

In the two matches with the strong Muskingum team, the Big Red came out victorious in one and tied the other. The first match at Muskingum resulted in a 3-3 score while the meet at Granville was won by Denison 5-1. Wesleyan proved too strong for the local team, winning two meets by the score of 5-1. Many of the individual matches were prolonged to the full three sets before a decision could be reached. Capital succumbed to the local racquetters attack in five of six matches while Otterbein followed suit in the next match, 2-1. In a single match with Wooster, the up state men gained a 2-1 decision.

DENISON UNIVERSITY

ADY TUM

Varsity Cross Country 1926

FOOT, ROGERS, SWIFT, JAMES, CASE

In spite of the fact that the Big Red cross country team lost every one of its three dual meets in the past season all of the contests were hard fought by the local harriers and ended in close scores.

Adverse weather conditions handicapped the men when they lost the first meet of the year to Ohio Northern at Ada, 29 to 26. Swift led the Denison runners with Captain James close behind.

Muskingum handed the worst defeat to the Denison team by running away with a 34 to 21 score in the second meet listed on the team's card. The race was close between the first six men considering that the five mile route was mostly a slippery, muddy country road and that the race was held in the face of a hard driving rain.

The Antioch meet was the first and only meet of the year in which the weather conditions were ideal for running. The meet was lost by the Denison runners, 30 to 25. The runners were closely bunched at the finish.

Intra-Murals

The Commons Club, with the total of $50\frac{1}{2}$ points won the outdoor inter-fraternity track meet held on April 15, 1925. Beta Theta Pi was second with $45\frac{1}{2}$ markers. Heinrichs, Beta, was high point man with $26\frac{1}{2}$ points.

Field Day honors were again captured by the class of 1927, which garnered $92\frac{1}{2}$ points to $42\frac{5}{6}$ for the freshman, their closest competitors. Kadon, sophomore, broke the Denison record in the discus with a heave of 121 feet and 7 inches. Heinrichs, sophomore, was the leading scorer.

The Kappa Sigs copped the honors in the volley ball league with a record unmarred by defeat.

The Sig Alphas defeated the Kappa Sigs in a play off for the indoor baseball championship.

Scrap Day was won by the class of 1929 in the contests on Deeds Field in the fall of 1925. By this achievement they were permitted to dispose of the little green buttons which adorned their freshman caps, the mark of their social inferiority.

The Betas won the major league basketball title by a neat victory over the Phi Gams in the final game. The majority of the teams in this league were evenly matched and some fine games were on the menu served to the local fans.

The minor league was won by the Phi Deltas after a close contest for the championship with the Kappa Sigs, from which the Mountaineers emerged with the better end of a 27 to 25 score. It was necessary to play two extra games before the finalists in this league could be determined.

In the inter-class division the championship was won by the class of 1929 by defeating the Sophomores in the deciding game. There was little difference in the abilities of the two teams but the Frosh were better supplied with capable substitutes.

The indoor inter-group track meet was won by the Denison Commons Club with a total of 41 points. The Betas with 22 markers were runners up. One record, the pole vault, was broken by Trepass with a vault of 10 feet 4 inches.

The Denison Commons Club won the annual indoor swimming meet in March with 34 points. Beta Theta Pi was second with 19. Phi Delta Theta third with 11.

MISS BARR

MISS BADENOCH

MISS DARROW

What the Women's Athletics would have been without Miss Barr, Miss Badenoch, and Miss Darrow, this past year, there is no telling. Each of them has worked with tireless energy, fine loyalty, and the best of coöperation with the girls, towards the bettering of athletics and the Women's Athletic Association. We are proud to have them all in the department, and we are grateful for the vast improvement they have wrought. They have done everything to create enthusiasm, to bring modern ideas, and to make our athletics a success. We owe much to them.

They have instituted such things as a "Dance Recital", a beautifully gotten together performance by the students of dancing. They have made the "gym" office a really business like place, good looking with the proper atmosphere. They have actually recreated the locker rooms and shower rooms into pleasant, white curtained places. They have faithfully attended all Athletic Association meetings and their suggestions have been the basis of most of the improvement made there. They have made it possible to offer golf as a sport, on the Granville Inn Golf Course. Most of all they have made the girls enjoy athletics; they have contributed that thing called "spirit".

D. H. Association

BAKER, HALL, GORDON

BRABROOK, JOHNSON, GILCHRIST, HULET, BROWN; BRUCE

THRESHER, SMALLEY, FREDERICK, CALLIHAN, D. DARROW; HENDERSHOT; BATEMAN

This group has awakened this year and really started to function. It has made its requirements more possible, procured good looking letters and white blazers as rewards, and is taking in a number of new members. The girls who have won red D. U's are Florence Smalley, Felicie Thresher, Jean Gordon, and Dorothy Darrow. Those with black D. U's are Ruth Baker, Betty Bateman, Helen Brabrook, Dorothy Brown, Elma Bruce, Margaret Callihan, Ethel Gilchrist, Catherine Hall, Helen Hendershot, Norma Johnson, Edythe Hulet, and Mildred Proctor.

Track 1925

BECKER, QUAYLE, BAWDEN

JONES, LOUGHRIDGE

DARROW, THOMPSON, GAGE

Eight events were held on Beaver Field: shot-put, javelin, discus, broad jump, high jump, hop-step and jump, dash and relay in which the class of 1927 came out with the highest score. Ruth Jones was the very able head of this sport. An All-Shepardson team was chosen as follows:

Dorothy Darrow, Anna Gage, Dorothy Quayle, Luella Thompson, Ann Wright, Dorothea Bawden, Ruth Jones, Eurie Longbridge.

Tennis 1925

PROCTER, ADAMS, COOK
GORDON, JOHNSON

A class tournament was held in the spring in which the class of 1927 were the champions. From these class teams this All-Shepardson team was chosen:

Jean Gordon, Norma Johnson, Alice Cook, Dorothy, O'Dell.

Last fall an individual tournament was played off and Jean Gordon defeated Norma Johnson in this for the championship.

To Alice Cook, as head of Tennis the enthusiasm for and interest in tennis, is due

Tennis Champion 1925

JEAN GORDON

Swimming Champion

LOUISE RAYMOND

Dorothy Brown as head of this sport, with the assistance of Miss Darrow, swimming instructor, managed some very good swimming in the gymnasium. Louise Raymond, a Sophomore, was again the individual champion, although the Freshmen were the winners of the meet. Their team was composed of the following: Louise Herler, Mary Belle Hilliard, Helen Blanke, Hester Mack, and Helen Hess. The Sophomore team was composed of Helen Brabrook, Wilma Neubecker, Louise Raymond, and Hannah Reid.

Hockey 1925

BOHANON, DARROW, THOMPSON, GORDON, DEEDS, PRICE, BRABROOK, HENDERSHOT, ODELL,
MUGFORD, KURTZ

This, with Jean Gordon as head proved to be a very popular sport and some very good hockey was played on Beaver Field this fall. The Sophomores defeated the Juniors in a hard game on Field Day, thus winning the championship for the class of 1928. The following All-Shepardson team was chosen:

Dorothy Darrow, Dorothy O'Dell, Eleanor Kurtz, Esther Mugford, Betty Bohannen, Betty Price, Helen Hendershot, Jean Gordon, Luella Thompson, Josephine Deeds, and Helen Brabrook.

Archery 1925

AMOS, HART, RIFFEY, SANGFORD

Helen Hart as head of this sport helped to make archery very much of a success this year. Also the interest was increased by a prize bow and arrow offered by an outsider, to the girl with the highest score in the tournament. Sarah Amos won this with a score of 40. The runners-up formed the rest of the All-Shepardson team. Thus:

Sarah Amos, Helen Hart, Ruth Sangford, Beatriee Riffey, and Wilhelmina Hulsehizer.

Baseball 1925

GIBBS, THOMPSON, DAVIS, BRABROOK, SOLT

The class of 1928 carried off the honors in baseball. Some very creditable work was shown; Helen Brabrook doing unusual pitching for a girls' team. The All-Shepardson team shown above consisted of:

Virginia Solt, Helen Brabrook, Dorothy Quayle, Marion Ebaugh, Luella Thompson, Bessie Thompson, Helen Davis, and Josephine Deeds.

Track

DARROW, JONES, LOUGHRIDGE, WRIGHT, BAWDEN

Golf 1925

DOREY, DEEDS, PIGGOT

This sport was offered to us for the first time this year, and we were given the opportunity of playing on the Granville Inn golf course. The freshmen versus the upperclassmen were combined into foursomes and played the tournament for holes. The freshmen won the championship. This All-Shepardson team was picked:

Margaret Dorey, Ethel Piggot, Elsie O'Brien, and Josephine Deeds.

Basketball 1926

K. DARROW, HALL, BRUCE
SMALLEY, D. DARROW, GORDON

This was decidedly a popular winter sport with a great deal of competition in all the classes. The Junior and Senior teams tied for the class championship. For the All-Shepardson team the following were chosen: Katherine Darrow, Dorothy Darrow, Catherine Hall, Elma Bruce, Jean Gordon, Florence Smalley.

The Yale-Harvard game was a real success this year. It was played off in the Wigwam, and with the large floor, the game was a very good one. Harvard was the winner with the following on her team: Katherine Darrow, Marie Maunis, Florence Smalley, Edythe Hulet, Catherine Hall, Helen Hendershot. The defeated Yale team was composed of the following: Betty Price, Dorothy Darrow, Margaret Williams, Jean Gordon, Lucy McNall, and Elma Bruce.

AIR, NISHOLSON, ENGLEHART, JAMES

President HAROLD JAMES
Secretary ROBERT ENGLEHART

The Granville Student Council is the governing body of Granville College. During the past year under the leadership of the president, Harold James, several steps have been taken for the betterment of conditions on the campus. Adoption of the Australian ballot system, and a standard for eligibility of office holders marked a new era in student affairs.

Shepardson Student Council

The government of the students of Shepardson College is taken care of by the Shepardson Student Council. The organization, which includes all resident students, elects its own officers, class representatives, and Board of Control Members. All matters concerning the welfare and activities of the student association come under the direction of this body.

The local council is a member of the Interecollegiate Association of Women's Student Governments.

Officers for the year 1925-1926 have been:—

<i>President</i>	FLORENCE SMALLEY
<i>Vice President</i>	GRACE JONES

GUIDES TO LIFE WORK PRESENTED IN Y CAMPAIGN

Students Have Opportunity
To Hear Many Noted
Speakers

College students should choose their life work in accordance with their ability and should choose it only. This was the gist of all the lectures which composed the Vocational Conference were sponsored by the Y. M. C. A. and Y. W. C. A.

"Vocational work made" with a low of youthful leaders and all address meetings as one of the three greatest arguments in human life, was the statement made by Rev. T. W. Foxworth in the Wednesday service in Denison chapel.

A definite choice must be made, he said, in finding the work that each is meant to pursue. One must further study, use his drives

DENISON IS ONLY UNBEATEN TEAM IN BUCKEYE LOOP

Local Quarter Hands 41-25
Trouncing To Southern
Rivals

The Denison university basketball team took another step toward the championship of the Buckeye Athletic Association last Saturday night, when the Big Red players defeated Miami University, their co-leaders of the circuit, 41 to 25 in the second of a series of ten championship contests on the Big Red schedule.

The contest was speedily concluded, but after the first few minutes the Big Red slacked off the pace, set at the start of the game. Things looked rather bad for the visitors when they called time at the end of the first fifteen minutes with the count 6 to 14 in their favor. Failure of the Denison players for some quick baskets

Shepardson Glee Club

The girls of the Shepardson Glee Club, under the artistic direction of Miss Lois Jones, enjoyed a successful year and more firmly established their reputation as songsters this year by a trip to Chicago during Spring Vacation.

Dorothea Bawden, as vocal soloist, delighted her audiences with her poise and naturalness, as well as her voice. Sara Lou Howland, cellist, and those that took part in the special numbers of the well planned program also deserve mention for their fine work.

Katharine Rohrer was manager for the 1926 season.

Denison University Glee Club

McGUFFIN

COURTIER

The Denison University Glee Club has had one of the most successful seasons in years. After the annual try-outs it was found that over fifty per cent of the traveling squad was composed of new men.

The men made their first appearance at Homecoming in a joint concert with the Shepardson Club and the Denison Orchestra.

During the Thanksgiving vacation the Club took its annual Fall trip. Concerts being given Chillicothe, Huntington, W. Va., Charleston, W. Va.

The men who made the Fall trip were: Albert Thunn, Arthur Tuggey, Lynn Graves, Sheldon Swenson, Jack Robison, Ralph Allen, David Isaacs, Paul Stull, Nelson Grube, Joe Howland, Arthur Huff, Donald Minor, Walker Air, Robert Green, Erle Ellis, William Courtier, Kenneth McGuffin, Carl Dawkins, Thomas Folsom, Leroy Bevan.

What was acclaimed to be one of the most successful Spring Trips of recent years was taken in April through Northern Ohio. Enthusiastic audiences greeted the club at every concert, and in several cities receptions were given the men by Denison alumni and their friends. Special occasions at which the Club sang were: Lincoln International Club of Toledo, the Kiwanis Club of Port Clinton, the McKinley high school, Canton, the Rotary Club, Mansfield, and the Mansfield high school.

Other places visited by the Club included, Broad Street Baptist Church, Columbus; Baptist Church of the Master, Cleveland; Memorial Auditorium, Wauseon; Ashland Avenue Baptist Church, Toledo; First Baptist Church, Akron; First Baptist Church, Canton; and the Park Avenue Baptist Church, Mansfield.

Those making the Spring Trip were: Kenneth McGuffin, Leader; Karl Eschman, Director; William Courtier, Manager; Arthur Tuggey, Lynn Graves, John Robison, Albert Thunn, Paul Stull, Ralph Allen, David Isaac, Nelson Grube, Joe Howland, Arthur Huff, Donald Minor, Robert Green, Walker Air, Erle Ellis, Harling Spring, Thomas Folsom, Leroy Bevan, and Paul Clissold. Quartet: Albert Thunn, Walker Air, Ralph Allen, Kenneth McGuffin.

Masquers

The Denison Masquers maintain and increase the interest in dramatics in the University. Membership is honorary and is determined after competitive try-outs held in February, in which all students are eligible to compete. Prof. E. P. Johnston is the coach of the organization.

This year the Masquers have tried to keep step with the modern development by presenting plays that are modern in thought and in representation. In addition, they have started the presentation of one act plays at their meetings in order to give the members more experience both in acting and producing.

"The Goose Hangs High" dealing with the problems of a modern family, was presented in the winter, and "Candida" the most difficult of any play thus far attempted, scored a success in the spring.

According to the usual custom of presenting an outdoor play at Commencement, "Twelfth Night" was presented last June.

The Biological Society

THE Biological Society celebrates its tenth anniversary this year. It was initiated into life as the Genetics Club in 1916, with a membership of nine. Then through a period of rapid evolution it became known as the Zoological Club, Biological Club, and finally to its present name of Biological Society, with a membership trebled in the intervening ten years.

The Biological Society was organized to arouse interest and promote knowledge in the Biological subjects by means of lecture, discussion, and field trips. Any student taking work in the Zoology or Botany Department is eligible for membership upon invitation by the Society.

At least one all day field trip a semester is planned for. Black Hand and Cranberry Island at Buckeye Lake are favorite stamping grounds.

A social meeting is enjoyed once a semester and a party at the end of the year.

The pin, which was adopted this year, is black and gold with a gold microscope, which is distinctive of the two departments.

Jaw Bones

Jaw Bones is a society composed of students who are majoring in social science courses. Members are chosen from those that have the required major and maintain a grade of "B" or above. The purpose of the organization is to create and perpetuate interest in the departments of History, Economics, and Political Science.

OFFICERS

"Betterment of conditions in Denison" is the purpose of the new Boosters Club organized this year on the suggestion of the "D" Association and Men Student Council.

Improved cheering, promotion of Denison spirit, stunts at games, backing of teams and coaches, and Sub-Freshman day along with get togethers for the men of Granville College are among the things included in their program.

Geological Society

FRASCH, FREDERICKS, DARROW, COURTIER, MOORE
ROTH, DOUTT, H. YOAKUM, STARK, FARMER, DEWEY

The C. L. Herrick Geological Society was founded on October 21, 1907. The object of this society is to foster a spirit of investigation and promote a better acquaintance of students interested in Geology. The Society is an honorary one, since it elects its members and has a limited enrollment.

The George Platt Knox Club

ADY TUM

The George Platt Knox Club, a departmental organization which meets a long felt need in the field of Christian Education at Denison University, was organized on Tuesday evening, November 24, 1925.

The club was named in honor of George Platt Knox, first head of the Department of Christian Education in Denison.

The aims and purposes of the organization are:

- To stimulate a deeper interest in Christian work on the campus.
- To broaden and enrich our contacts in the field of Christian education.
- To give practical training in Christian leadership.
- To give inspiration and ideals which may be carried away from college halls.
- To ever seek to interest others in this line of Christ's work.

The Junior Reune

The annual show put on by the Junior Class for the Geneva Benefit was very successful, and highly enjoyed by the packed houses at both of the performances.

It was a musical comedy, *April Foolers*. The entire plot, music, songs, etc., were original and clever to the "nth" degree.

A house party given by Miss Shirley Evans is interrupted by the appearance of a gawky country cousin, Polly Marshall, who quickly changes into a beautiful social butterfly, and the fiancée of Mr. Norman Manning, the former sweetheart of Shirley. Shirley becomes engaged to Mr. Jerry Nelson, and everybody lives happily ever after.

Katherine Wolfe very successfully played the role of Shirley, and she was admirably supported by Andrew Carey as Jerry. Nina Watkins and Herbert Owens as Polly and Norman were very excellent. Beatrice Ewart added another triumph in her role as mother, to her already long list. Other members of the house party were: Elizabeth Price, Alice Abernethy, Kerma Bradford, Mendel Shanley, William Guthery, and Robert Luff. Jean Gordon as the maid, and Thomas Edwards as Rollo Jones were superb in the comedy roles.

The chorus work was carried on by a women's and men's chorus. The Ladies of the Ensemble were: Dorothy Darrow, Dorothy Detweiler, Emily Maynor, Dorothy Brown, Alice Cook, Dorothy Clifford, Winifred Graves, Dorothy Reed, Cornelia Smith, and Florence Martin. The Gentlemen of the Ensemble were: John Innes, Robert Luff, Harold Broughton, Walker Air, William Bateman, Gerald Pence, Sheldon Swenson, Lawrence Howe, Robert McClelland, and Lockhardt Bovington.

OUR MEAN ON WOMEN OF SHEPARDSON.

"And a little child shall lead them."

In recognition of all that she has done us for, taking the biggest place in our school life, her democratic spirit in keeping everyone free and equal, her ability to understand both of her faces, and in closing we must say ours not to question why, ours but to do or die. We respectfully dedicate this book to all that we hope for to our much besmirched and not unwisely, friend, counselor, and judge.

—DENISON UNIVERSITY—

Hour Instructors

DR. BUNION CENSOR—This man has forty-five degrees north latitude. His philosophy includes the turning out of great women, and infamous men, however he is inclined to the opinion that such was not the case although the circumstantial evidence showed twelve bottles. "The trustees and I make a majority."

DR. T. N. CHAMBERMAID, Ph.D. (Phantastic Dancer) Absence makes the heart grow fonder. The only time that he worries about his job is at Thanksgiving time. "Even a hair may cast its shadow."

The two boys in the insert are correspondents in Christian Endeavor. "Two flies sat upon the axle of a wheel and exclaimed what a dust we do raise."

AUGUSTE GOLDBRICK, Ph.B. (Phormost Bachelor) His most famous saying is too late for Herpicide. He must be careful when people are out looking for eggs. "Why the Devil was handsome when he was young."

ANNIE EXPECTHIM, M.A. (Mostly Avoirdupois) It is said that this lady leaves Sunday night to get to her 8:00 o'clock Monday. She is not in favor of the new reducing exercises. "God made but one cast from this mold, one was enough."

Classmates of '29

GEORGE IMHOFF, otherwise known to the students as Student Emeritus. He is the grand old man of Denison, and, if he ever graduates he may immediately go into an old man's home. Who said that a college education isn't worth something? "I have fought a good fight, I have finished my course."

ELEANOR MACHLIN—Many good things come from Milwaukee (mostly in bottles) and among these things we find this demure little damsel. (Not among the bottles but among the good things.) It is said that she played the part of Silas Marner and found that she didn't have to dig for her gold. "A flower of meekness on a stem of grace."

WYNNE SILBERNAGLE—He is after the degree of C.L. and many think this to be Cheer Leader. He was raised on a bottle and so far, he has been unable to break himself of his childhood habits. "The answer to a maiden's prayer".

NORMA JOHNSON—She has a weakness for pie, that is Beta Theta Pi and track men (when she is on their track). The book last year said that when you looked once into her eyes you would do it twice. Who could kill themselves twice? "Such a woman is at the beginning of all great things."

GERALD WELLMAN—This man is working for the degree of G.M. or Girl Murderer. As he said, What is a show or two among friends? One of the Lambda Boys (this will not be held against him in the final reckoning). He has found that his key will not open beer bottles. "For such is the Kingdom of Heaven".

Classmates of 23 (too much)

DOROTHEA BAWDEN—She practiced very diligently for the finale in the Phi Mu Opera. She is accomplished now that she has learned how to play politics and make trouble so that she will not have to hunt for it. "Tis with narrow necked people as with narrow necked bottles; the less they have in them the more noise they make pouring it out".

WILLIAM GUTHERY—otherwise known as Billy Goat. Called this because he is always butting in. You are able to see what a big class this is by the size of these men. He is seldom seen in chapel except when they have communion, and he is one of the Rover boys who knows not what he does. "Something between a hindrance and a help".

JEAN GORDON—One of the girls from the place where they rake leaves all fall. She is the athletic type that is never seen in print. She goes to the woods, and waits for the trees to leave so that she may be all alone. "She hath a why for every wherefore".

JACK MEEKS—The only rival to the aforementioned party of the class. He reminds us of March because he comes in like a lion and goes out like a lamb. Since the leaving of Major he is the biggest thing in Denison. "The town seems empty since he went away; it was never so big and bare before".

Be Natural or 20 come 7

DAVID ISAACS—In case you don't like this you can all go to Martin's Ferry, and when in Martin's Ferry do as the Fairies do, and cross the river. He had the quart, in the quartette. "I have enjoyed the happiness of the world. I have lived, and I have loved".

HILDA SMITH—She is working hard for a degree in social engineering and we wonder what she will do with it when she gets it. "She leans not upon herself but upon others".

EVELYN PEASE—Sometimes called sweet for reasons unknown to us. The reason that she didn't take astronomy was she had other arrangements for the evening. "She has her follies but so has Ziegfeld."

RICHARD DEMAY—The boy with the golden smile. He hops bells in the summer. He has the pleasure of being the only sophomore elected to Phi Beta Kappa. He is not as dumb as he looks. "Some men are high because they did their work."

GEORGE J. McDONALD—His ears bray his middle name, the reason that he draws is because of his magnetic personality (?). His knickers are only too well known. "Greater love hath no man for himself".

AD
DY
TU
M

DENISON UNIVERSITY

Three hundred three

Twenty Sick (we wish there were more)

JOHN GIBSON—This man should get calisthenis credit for laughing. Called Hoot because he resembles a stuffed owl. Called mascot because he went over fences at different times. "There is nothing small about him".

LOIS RITTENHOUSE—Her sarcasm is worse than any Mother-in-law, and she is working for almost any degree, in the shade. We expect big things of her (?). "And still the wonder grew, that one small head could carry all that she knew".

ERLE ELLIS—It is said that he is a swimmer,—most fish are. He is another one of those from Fashion Park. Pardon, is that correct? We would just love to run our fingers through his hair but one must be careful of splinters. "Every day is ladies' day with me."

P. S. SCHALLER—So called because he runs around with his tongue hanging out. His looks are also against him in the long run of the human race. "Blessings on thee, little man".

EMILY SPENCER—She is a member of the S.P.C.A. (Society for Prevention Cruelty to Animals) which goes to prove that she appreciates dumb animals. She hails from Hell's Half Acre, but who wouldn't. "Fairest of all stars when only one is shining."

For the benefit of those who have never had the opportunity of being Greeks or belonging to other boarding clubs and those not of the intelligentsia, we herewith present the innermost secrets of the various organizations which infest, undermine, and destroy all semblance of university life. At the risk of life and limb our intrepid sleuths obtained the following information. However, if any of the startling facts which we disclose are questioned as to their veracity we simply wish to state that we were eye witnesses of all of which we relate.

SIGMA CHI—Upon entering the sanctum of Sigma Chi and striking upon the royal goboon, thereby causing it to ring, we were admitted into the Mail Pouch Factory. Lined up against the wall balanced on their left ears the unfortunate initiates were being bastinadoed by lead pipes while chewing conscientiously two sacks of Mail Pouch. Services were begun by Brother Frasch who led them all in singing, "Shall we gather at the river where there is no need of Goboons." The initiates were shortly afterwards released, and upon taking the oath committing themselves "in hoc signo" they were knocked out, and laid in with the tobacco to cure. We imagine that by now they are well cured. The ritual this year was stolen from Lambda Deuteron, and in a short time the initiates came to and joined together in the singing "So this is Hell". Then Brother Fundaberg passed out roses which he had stolen from Newark. After this touching little ceremony was over Sinsel came around with the ball bat, and collected the money that the new men then owed the organization. The new men were then put to bed while the rest of the brothers went out and celebrated by becoming inebriate on hot chocolates and cigarettes. It wasn't the chocolate but the cigarettes that had done the dirt, as they were not used to smoking their tobacco. To overcome this lapse in decorum they attended church the next morning, but the joke was on the Sigs because it was Saturday morning.

BETA THETA PI—The sleuths put on football uniforms and gained easy access to the halls of Beta. At one end there was basketball practice in session while Heinrichs was seen jumping hurdles at one side. All of a sudden chimes were heard and the Beta

chapter gathered together in singing "Thank the Lord I'm a Beta and can drink from our Goboon". The pledges were then lined up and made to go through the deficiency test till they dropped from exhaustion. The rest of the boys then gathered around and threw red hot coals on the stripped-lings while Keeler operated the laughing gas machinery, and kept them all in continuous uproar. While still in a jovial mood they were brought before the shrine of Alpha Eta, and put through the rigorous ordeal of saying "Thank the Lord I'm a Beta," 1839 times to keep it fresh in their memory. Half the chapter then retired to wait table for the feast.

PHI GAMMA DELTA—We dropped in on these boys and showed them a pack of Chesterfields and they were satisfied because that is their password. We then proceeded to the dressing room and dining room combined, where Brother Smith asked the Lord to bless all the Links in the porch swing for the ensuing season so that the brothers wouldn't fall too hard. An enticing little melody was then played on the swinette by Pierson. The freshmen were then lined up and started in search of a blind pig. After the pig was caught Luce was seen sitting in the corner singing "Smoke dreams" and reviewing the Juniors. About this time Bateman and Mazey blow in from a huge date. The initiation is then put on. The Freshmen stand by and watch the others eat the pig so that they will know how when their time comes. They then kiss the remains and are duly enrolled on the books of Lambda Deuteron, and close with the singing of "On a Fiji Moneymoon".

KAPPA SIGMA—After tying our horse to the hitching post and dodging some mud balls thrown by Gregory who was playfully throwing the shot put in practice we were admitted into their rendezvous. Hick was sitting on the stove making a Christian Endeavor to keep from being wet. Stibitz was doing a chalk talk on the movement now on hand to keep up the scholarship record. Pence sat there in his usual thoughtful but really dream-

ing of other people and things attitude. Then Evans got up and gave a talk on how to get along with the women and this was followed by vociferous applause. Suddenly the lights went out and the crescent and the star appeared. The Freshmen quailed at the sacred sight. They all started to sing "Some prefer Phi Gamma Delta, etc." When the riot had quieted down they proceeded to the initiation ceremony which had been written by Luff. It was such a hot ritual that they had to open the windows. The freshmen were then sent to kill all the rats in the house but after the actives had rescued three of the pledges from the hungry beasts they decided it was time to put the jewelers exhibit on them. Then Imhoff and Levering went out to kill some of the stock and we made a hurried exit. It might be said that it was necessary to have the initiation outside of the house as the chapter house is too weak in its structure to hold the entire group.

PHI DELTA THETA—After climbing the hill to the house that Jack built in 1492 we lay breathless on the greensward, and here we noticed the boys using the telescope in a manner unbecoming anyone but a Phi Delt. Finally the ground opened and let us in to their chapter cave where we saw the forty thieves. Guthery then passed around a bottle of T.N.T. and all of the brothers and the Freshmen partook, but failed to appreciate such weak beverage. Finding that the Freshmen were so hard they were then put into boiling oil to soften them up a little bit. This also failed in its purpose whereat Stockdale suggested an amusing little trick they pulled twenty years ago when he was a Freshman. The Freshmen were tied down and the skin was then ripped off of their back and this was to hang upon the chapter walls, thereby saving the price of buying new wall paper. Liquid fire was then squirted on the tender places to the tune of "God Bless our Home". After drinking what was left of the liquid fire the Freshmen were then sent out after twenty dogs and the initiation would have been over had they not brought McDonald in for one of the dogs. They closed by batting each other playfully over the head with meat cleavers as they joyfully sang, "Rock of Ages cleft by us."

LAMBDA CHI ALPHA—These boys are busy playing "farmer in the dell" when we reach their residue, or farm. Palmer then enters with a thrashing machine, and proceeds to paddle the Freshmen with the machine. Sanders then tells how the boys should sow their wild oats and this was done with illustrations. Dawson, the Phantom of The Farm, assumes his natural shape and scares the Freshmen into the idea that they are joining an organization. The Freshmen are all then put in a frame of mind and hung upon the chapter walls while the actives read Farm and Fireside and listen to the orchestra broadcast. It is hoped some day by these men that will be able to take over Phi Mu Alpha thereby outgrowing the rural atmosphere. Suddenly Wellman breaks in with great news "We have gone national due to the fourth liberty loan going over the top." The Freshmen fall from their positions on the wall, and join together in playing Ring around the

Rosene, while singing "We are the Best Boys". All of a sudden the whole chapter tears out, just remembering that they had forgotten to do their chores while putting the boys under. Then they went into the kitchen and gave the Freshmen all jeweled pretzels.

SIGMA ALPHA EPSILON—This S. A. E. group is also known as the Violet Boarding Club or the Sleep and Eat Club. We, the sleuths, in order to get into their initiation ceremonies had to bring a bunch of new violets which they in turn sell to little flower girls. They then showed us their curiosity cabinet in which were the remains of 8 Ball James and Bill Silbernagle as well as the Crooksville Crook (older). Nicholson called the meeting to short order and as they ate the Freshmen depicted touching little scenes such as "Don't bring me violets when the shoesies are in style," "How to be well preserved," "The shooting of Dangerous Dan Morton," and "Why we need 100 chapters." The pledges then were told why S. A. E. was on the slab instead of R.I.P. An etiquette lecture was then given by Weisenbarger and Broughton, on how to act like the rest of the Greeks. They all gathered around the new orthographic Victrola and sang "When the roll is called up yonder, half of them will be S. A. E.'s." This closed their initiation ceremony, and the Freshmen could then eat as regular members.

ALPHA THETA SIGMA—This new band of cutthroats were more than glad to have the sleuths visit them during their initiation ceremony. Herron appeared in a Kimona and told us suggestions would be greatly appreciated as they had an up to date ritual but not full enough. We suggested that they proceed with the initiation where upon the Freshmen were told to register surprise. Milk bottles were then brought out and passed around but Michaels, one of their infamous alumni, got up and declared that the chapter morals were going to the dogs. "There should be no milk drinking in the house." Then Walker Air appeared with packages of Mellon's Food. This was too much for the Freshmen so they were made to sleep standing up while the rest of the boys softly sang "Couldn't get to it in time". After this the Freshmen were put through a strenuous initiation they learned the names of the members of the faculty who were formerly in their group, and Michaels would holler wrong when anyone missed his name.

PI KAPPA EPSILON—When we arrived there we caught the boys trying to decipher a poem that had been written upon the wall by one of its former occupants. All of a sudden they dashed up stairs and turned out the lights and got out their telescopes proving to us that they were all Pekes. After this entertainment (?) they ordered all of the Freshmen up into the attic and then shouted FIRE the Freshmen made a dash for the window one of them failed to get there as he was lost in the rush the other one successfully made his way to the window and down the rope on the outside. The Freshman upstairs overcome by the smoke of Tilton's corn cob forgot himself and came down stairs again. The telescope was again put into use by paddling said Freshman with same. He finally saw the light and turned it out. Just then Gambrell broke in the house carrying two men under his right arm, and a telegraph pole under his left. After taking what money these boys had they had buttons put on them and their name added to the chapter role. Pearson then declared a holiday so as to give the boys a chance to rest up from their rushing season. Benson then appeared with a baseball and joined with boys in singing "Greater love hath no man than to give his only begotten son to our movement".

DENISON COMMONS CLUB—These boys of the open ritual did not need to worry about us attending their ceremony. After calling up the various fraternity houses and consulting a directory they proceeded to pledge the rest of the Freshmen in school to temperance, Y.M.C.A. work, and student movements. The interpreter explained to us all that was going on and we learned that they were planning on changing the name to the Cosmopolitan Club. Waters then got up and announced that everyone should be in church tomorrow to assist in the burial of ten brothers who had died a year ago but whose death was not known until a short time ago when their doors were broken in. Deputy then got up and announced that due to the fact that the lights went out at 11 o'clock they would give the boys the pin and grip and dispense with the rest of the initiation ceremonies. They closed in singing "United we stand divided we fall".

KAPPA PHI—The sleuths upon presenting gold plated calling cards with their names in platinum upon same, and making a sound like a turtle dove calling to its mate were received with open arms. The preps then greeted them warmly, by making them stand in front of the fire place. The cistern then proceeded to put the initiation ceremony on. It had the semblance of a fur coat but it did not fit them all. The girls were made to walk up and down the room balancing huge encyclopedias on their heads and shouting in unison, "Kappa Phi on you". They were then made to jump at conclusions, but some fell on the carpet and got—up. Then they all hung on the mantle piece by their chins so they might not only become good singers, but develop their pretty necks. They were then taught to play black and tan so that all might know they were true Chicagoans. The pin was then placed upon them and we left so that they might enjoy themselves to the utmost.

CHI PSI DELTA—Upon giving the cry of distress similar to that of the wild Egyptian crow (old), all the fair damsels came to our rescue and allowed us to hear the initiation ceremony which if we hadn't been so dumb we could have heard on Sugar Loaf. Passages were then read from the American Magazine telling how to get ahead in this world. They were then instructed in the morals of the chapter which no sooner was begun than ended. They then gathered together and sang "What is Home without a Mother". They have a good time in teaching the new girls an amusing little game called "Don't drop your handkerchief unless you want to meet him". They then taught the secrets of the chapter to the initiated; such as who put the sun on the sunporch? and How to appear after you have disappeared. Scissors were then brought out and the new girls were given their shingles and shown how to cut pretty figures. They closed in singing, "There is a long long trail a winding into the state of matrimony but a short one into the state of insanity".

SIGMA DELTA PHI—Upon entering the cellar we found the girls two jumps away from a keg of "Old Mother Vinegar", thereby proving they are assiduous in their tastes. The Freshmen were being made to retrieve little golden apples from the beverage in the keg. This was to teach them that if they stopped to think they could not win the human race. This novel idea was taken from an ancient Grecian custom. They all then bounced upstairs for they wore rubber heels and proceeded with the initiation ceremony. They were made to wax the floors in order that they might learn to become smooth dressers. They are thinking of joining Lambda Chi Alpha and thereby joining Phi Mu Alpha with Delta Omicron. Their only drawback is the fact that they are on a hill and need plenty of pull to anybody to accept their invitation. Don't miss the opportunity however because they still have plenty to learn. We left when the milk man came as it was getting rather early.

PHI PHI PHI—The founder of this organization, if any, was a Greek restaurant owner in Newark who always talked with a mouth full of pie. When asked what he was eating, he said, Phi Phi Phi, and thereby got their name. Their favorite comeback is,

Don't stutter, I heard you the first time. Disguising ourselves as meat men we gained easy admittance telling them that we were giving away links of sausage to use as guard chains. They then proceeded with the initiation ceremony. From what we heard of it we judge that it was written by a Beta, the three P's standing for Purity, Peace, and Perpetuation. The preps were then made to take off their hobnailed shoes and flit about on their heels in order that they might learn to become more anaesthetic. The initiates given bicycles and told to learn how Shepardson women should act. In a short time the bicycles all came back with flat tires. They were then given huge raspberry pies to eat and were made to chant Phi Phi Phi even as their founder had done. We left before they started throwing the berries around.

SHEPARDSON CLUB—This group—pardon us, this MOB—try to get one black sheep out of every hundred they take in so that it will be easier to count the little dears as they leave the fold. The ceremony opened by singing, "Onward Christian Soldiers, come and get your dates". The president appeared in the balcony overlooking the multitude and casting out food for thought so that the little girls might not become hungry even though they are well bred there were plenty of fish present. The leader then spoke entertainingly in twelve different tongues so that all present were greatly benefited. All the initiates were shown a picture of the crowd on the banks of the river Jordan and were told that this multitude were the founders of the Shepardson Club. The president then broke down and cried overcome by the onion stew they had had for dinner. The multitude bathed themselves in her flood of tears (some flood). Some few becoming seasick from the salty odor and the sultry breeze with which the room was imbued. Confessional then disclosed two of their members had been out after 8:30 with those of the fairer sex. However their pins were not taken from them for fear of embarrassing the sleuths, they also wanted to keep their membership up to the thousand mark. After walking a half a mile we finally got out thereby concluding our pilgrimage through ancient Greece and Fresh Lard.

The Diary of a College Professor

7:30 Arises after sleeping all night on the hall tree. At breakfast table makes the mistake of combing on orange and pouring sugar on his hair. Leaves house with some pickled specimens and lunch.

7:45 Meets his son on way to school. Asks boy how his father is. Proceeds on way to school. Remembers he has left watch at home. Takes timepiece out to see if he has time to go back and get it.

8:20 Arrives at classroom and goes to sleep behind his desk.

8:30 Class files in, goes to sleep.

9:30 Class wakes up, files out and a new class comes in. The professor is still locked up in the arms of Morpheus.

10:22 Student sneezes. Class wakes up, creating enough disturbance so that Morpheus drops the professor, where-

upon the professor is exceedingly wroth and gives class an hour quiz.

10:30 Collects papers, puts them on his chair, and throws himself in waste basket.

11:30 Manages to get out of waste basket by imagining he is a breeze and blows himself out. Flutters around the room shouting, "Eureka, Eureka!"

12:30 Calms down enough to be caught by himself in a butterfly net and then eats lunch.

12:45 Receives message from home that there is a baby at his house. Asks what the poor thing wants. Gives the telephone an olive oil bath and puts boric acid in the mouth piece. Tells ash man he doesn't need any today.

1:30 Class comes in. Gives them three hour quiz. Gives them each three pencils so they can write three times as fast.

A Typical Fraternity Meeting

Meeting is called to order by the President. Seven brothers start discussing as many different topics at the same time in as many different languages just to prove that they are true Greeks. Three brothers tear out toward the well-knownest sorority house—thereby proving that the call of the wild predominates even in institutions of higher learning. Secretary: Brother President, I wish to announce that the minutes of the last meet-

ing have been indefinitely lost. (Applause, coughs, sneezes, wheezes, catcalls and cussing.)

Voice from the rear: Brother President, I move we set the clock back and start some new minutes. (Vociferous applause.)

Pres: That will be enough wise-cracks from the floor, calm down and let's be on our way. Steward make your report.

Steward: We have over \$700 in out-

Thoughts On Graduating

I just adore to see seniors in their caps and gowns. You know what I mean. They look so serious. And they're perfectly thrilling when they walk across the campus or run—the seniors, I mean. You know, it sets them off from the rest of the college. It's just like Oxford. Or Cambridge. Not Harvard, but the Cambridge in England. Of course I've never been there, but my sister Judith knows a boy who had a classmate that went to Oxford for a year and he says they always wore their caps and gowns over there, no matter what they were doing.

I think Englishmen are awfully good-looking anyways. They're so—oh, I don't know. ut you get what I mean. There is something about them that you like. I should just adore to see them at Oxford, having tea, or playing ericket. The boys at Oxford must be awfully nice. Or the Cambridge fellows. They do lots of things like that in England, like wearing caps and gowns. I mean they talk about honour with a u, and they have royalty, and they stop at anything at all when it is time for tea. But we aren't high hat at all. That's why I like to see seniors in their caps and gowns. I think they're perfectly stunning and so cute. You know it makes them look dignified, and sort of intellectual like. And a boy friend of mine says that if a senior is going to be late for Chapel all he has to do is to put on some golf stockings and shoes and his cap and gown and he's all dressed and he can go to Chapel and no one will know the difference. But I don't think that's right. I mean,—well it isn't right. But I do adore to see the seniors in their caps and gowns. It makes them look so dignified, like Oxford. Or Cambridge. Not the one where Harvard is, but the one in England. You have to go now, well isn't
